 (Vancouver) D. B. Brankin

The Honorable the Minister of Education and Provincial Secretary is in charge of the administration of the Education Office, Provincial Museum, Printing Office, Provincial Board of Health, all Mental Hospitals, Provincial Home, the Legislative Library, and the Civil Service Commission.

The Provincial Secretary's Office is the official medium of communication between His Honor the Lieutenant-Governor and the Executive Council, and has charge of all Orders-in-Council as well as being the custodian of the Great Seal. The office also deals with the administration of the Provincial Elections Act, the Hospital Act, and the Civil Service Act. It has also charge of all matters respecting destitute poor and sick in unorganized districts throughout the province, the appointment and administration of the Hospital Act, including grants to hospitals, refuge homes and charitable institutions, the University of British Columbia, royal commissions, the appointment of notaries public and commissioners under the Evidence Act, and other matters of a similar nature.

Department Board of Health

The Provincial Board of Health consists of the Lieutenant-Governor-in-Council, the Honorable the Provincial Secretary being Chairman. The departmental head is

known as the Secretary of the Provincial Board of Health.

The Provincial Board of Health deals with all matters pertaining to the health of the community. The province is divided into districts over which a local medical officer known as the Medical Officer of Health of the district, presides and who reports directly to the Provincial Board of Health on all matters of contagious diseases, sanitation and the general health of the public.

There is a Department of Sanitation, consisting of Chief Sanitary Inspector and all of the constables of the Provincial Police, who are responsible for the sanitary conditions in their districts, particularly in the public works of construction, railroad construction work and lumber camps.

The Medical Inspection of Schools is another branch of the department and all school children of the province are examined medically once a year.

The Vital Statistics Branch of the Provincial Board of Health keeps records of all the births, marriages and deaths in the province. The province is divided into registration divisions and government officials act as Deputy Registrars, reporting to the head office, and in the head office the original certificates of all births, deaths and marriages are kept.

In this department it is absolutely essential that we should have, as near as possible, the correct knowledge of the population of the province in order that our percentages of births, deaths and marriages may be kept in such a way as to show us from year to year increases or decreases.

The plan formed to arrive at this data from year to year is to base our figures upon the enrolment of school children in the province. We are able to arrive at the number of school children exactly, as we have monthly reports from every school in the province, and it has been found by comparison with other authorities, who are endeavoring to find the population but by employing other methods, that there is

a wonderful agreement as to the results obtained by each.

The plan adopted in regard to basing the population on the number of school children varies in the different localities, and we follow the rule of making allowances for points where there is a large transient population. Where we have such a population we multiply the number of school children in the district by 6½, whereas, in an agricultural district, where residence is fixed, we multiply by 5½. For example, in Vancouver City we have 18,803 multiplied by 6½, making 122,203, as compared with the Dominion census figure of 116,700.

Registration of births, deaths or marriages may be made at any Government office in the province.

Provincial Library and Archives

The Provincial Library occupies a new

wing of the parliament buildings, and is one of the finest libraries in the Dominion. It is fireproof throughout, and equipped with all modern library appliances. The collection contains upwards of 100,000 volumes, in every department of knowledge.

Public Library Commission

Supervises the library activities in the province, it provides rural districts with small collections of books, and also sends books for reference purposes to individuals by mail, upon application to the Supt. of Travelling Libraries, Parliament Buildings, Victoria.

Public Libraries are established in the cities of Vancouver, Victoria, New Westminster, Nanaimo and Nelson, and Library Associations at Duncan, Revelstoke, Endorby, Penticton, Princeton, Fernie and Prince Rupert.

British Columbia enjoys the advantages of a free non-sectarian system of public and high schools. This system, established in 1872, has been modified from time to time. Thus, for example, when the system was first established the full cost of erecting school houses, paying the salaries of the teachers and meeting the incidental expenses of the various districts was met by the Provincial Government out of the consolidated revenue fund of the province. At present only newly established schools, termed Assisted Schools, and schools in the Esquimalt & Nanaimo Railway Belt are supported entirely, insofar as teachers' salaries are concerned, by the Provincial

Government. All other schools receive grants from the provincial treasury, but depend for their main support upon taxes levied in the municipalities or in the rural school districts, as the case may be.

The total enrollment at all the public and high schools for the year ending June 30, 1921, was 85,950. The percentage of regular attendance was 79.69. The total number of teachers employed was 2,734. Of this number 251 were employed in the high schools, 1,077 in the city graded schools, 644 in the rural municipality schools, and 762 in the rural and assisted schools. There were 52 high schools maintained during the year, these being established in the more settled districts throughout the province, or wherever there are available twenty children who have succeeded in passing the high school entrance examination.

The total cost of education for the year was \$7,170,029.50, of which amount the cities, municipalities, rural and assisted districts contributed \$4,238,457.25, while the grant from the provincial treasury amounted to \$2,931,572.25.

Elementary Agricultural Education

The Agricultural Education Branch of the Department of Education was instituted for the purpose of developing in and through the public and high schools of the Province a greater interest in the cultivation of the soil and in the production of plants and animals. This is done by linking up with the usual nature study courses the operative side of instruction as carried on in school and home gardens and other home studies in agriculture. This instruction is given directly by the teacher with or without assistance. Summer cour-

ses in rural science are held for five weeks annually to afford opportunities to teacher to get special training for this work. The District Supervisors of Agricultural Instruction assist public school teachers in their respective districts. Their duties consist in:

(1). To give a course in Agriculture, extending over two years, to students in attendance in high school.

(2). To assist the public school teachers of adjoining rural districts in carrying out a course of instruction in Elementary Agriculture and school or home gardening.

(3). To conduct extension or continuation classes in Agriculture at suitable points in each district during the winter months, open to boys and young men and women not in regular attendance at high schools.

(4). To incidentally advise with farmers throughout the district regarding such practical agricultural problems as they are immediately concerned with.

The planning and improvement of school grounds also comes under this branch. School Boards are assisted in affecting such improvements as are agreed on and are supplied with trees and shrubs for planting the grounds. These are secured from the schools department, Provincial Nursery, Essondale.

Manual Training and Domestic Science

79 Manual training centres.

62 Instructors of manual training.

8,349 Pupils from elementary schools receiving instruction.

1,436 Pupils from high schools receiving instruction.

51 Domestic Science centres.

46 Instructors of domestic science.
6,362 Pupils from elementary schools receiving instruction.
1,326 Pupils from high schools receiving instruction.

Night Schools

Night schools are held in 21 cities and municipalities: Anyox, Bevan, Chilliwack, Coal Creek, Colwood, Chemalus, Duncan, Happy Valley, Merritt, Michel, Metchosin, Mission, Nanaimo, North Vancouver, New Westminster, Revelstoke, Saanich, South Vancouver, Thrums, Vancouver and Victoria; with an attendance of 3,201 students.

Correspondence Courses

Correspondence courses in coal mining and mine surveying, with an enrollment of 135 students.

Correspondence courses in school subjects for the children living in isolated districts with an enrollment of 300 pupils.

Technical Courses

Department of Labor

Minister of Labor....Hon. Alex. M. Manson
 Deputy Minister of Labor....J. D. McNiven

The Provincial Department of Labor was established by the "Department of Labor Act" in 1917, with powers, duties and functions as follows:

To administer the laws of British Columbia affecting labor;

To acquire and disseminate knowledge on all matters connected with the industrial occupations of the people, with a view to improving the relations between employers and employees;

To collect such statistical and other information respecting trades and industries in British Columbia as may be deemed necessary or expedient from time to time;

To ascertain the localities in which mechanics, artisans, or workmen in any particular trade or industry are required, and wherever practicable assist in supplying the demand for such work or labor;

To ascertain and report upon sanitary and other conditions relating to the health, comfort and well-being of the industrial classes;

To establish and maintain in the various centres of population throughout British Columbia employment bureaus and similar agencies for obtaining suitable employment for workmen and women;

To enquire and report as to the establishment of new industries in British Columbia where it appears that such industries can profitably be carried on;

To enquire into, consider, and report upon the operation of laws in force in other parts of the British Empire and in foreign countries having for their objects the protection, technical training, and welfare of the industrial classes, and make such recommendations and suggestions thereon as may be deemed advisable;

To consider and report upon any petition for or suggestion of a change in the law of British Columbia relating to labor and wages or any matter affecting the industrial classes, presented or made by any trades and labor council or other organization representing those classes, or by any other person;

To perform such other duties as may from time to time be prescribed by any Act of the Legislative Assembly.

To further assist in supplying employers with labor and workmen with employment, a system of Employment Bureaus operated by the Department has been established.

These, with the officials in charge, are as follows:

EMPLOYMENT OFFICES

MINIMUM WAGE BOARD

In 1919 the "Minimum Wage Act" was passed by the Provincial Legislature establishing a Board with powers to ascertain the wages paid and the hours and conditions of labor and employment in the various occupations, trades and industries in which females are employed in the Province, and to fix the minimum wage, the maximum hours and such conditions of labor and employment as, in the opinion of the Board, may seem necessary or expedient for the welfare of employees. Since the establishment of the Board orders have been issued covering seven groups of female employees and embracing practically all kinds of labor in which women and girls are engaged in the Province. The personnel of the Board is as follows:

CHAIRMAN

J. D. McNiven.....Deputy Minister of Labor,
Parliament Buildings, Victoria

AGENT-GENERAL FOR B. C. IN LONDON

B, C. House, 1 and 2 Regent St., London,
 England.
 Agent-General.....F. C. Wade

The Department of Finance, as the name indicates, has control of all the Province's financial transactions, the levying and collection of taxes, and the making of all disbursements. The general taxes collected through the agency of the several assessors and collectors throughout the Province are paid into the treasury, and all receipts from license and other fees and royalties collected by other departments are also dealt with by this department.

The Deputy Minister has, under the Minister, complete supervision of all branches of the Department and of the outside agencies. The Inspector of Revenues acts as his assistant and pays particular attention to revenue matters.

SURVEYOR OF TAXES

The Surveyor of Taxes is in charge of the assessors and collectors in the thirty assessment districts into which the Province is at present divided. He has general oversight of the collection of all taxes. This branch of the Department has been reorganized with a view to a more thorough and complete assessment of all taxable properties, and collection of all taxes and arrears from every source.

COMPTROLLER-GENERAL

The Controlling and Audit branch of the department has been reorganized by the present minister and is now exceptionally strong. At the head of the branch is the Comptroller-General, an officer of the Legislative Assembly, and responsible to it alone. The general duties of the Comptroller-General include the exercise of general supervision over all matters relating to this branch of the service; responsibility for the proper audit of all accounts, both at Victoria and, through the medium of travelling auditors in all the Government agencies throughout the Province; and gen-

eral direction of the keeping of the accounts of the Province. These accounts have to be kept by double entry and in such manner that there shall be shown at all times the standing of legislative appropriations and of all other accounts, and the precise conditions of the Province. By the adoption of the pre-audit system, the Comptroller-General has to be satisfied as to every proposed payment before the payment is made, thus securing a real control over the expenditure of public moneys. Under the Comptroller-General, in this connection, is an Auditor of Disbursements. For the purpose of evereising an audit over the collection of revenue, and further insuring that collections are fully made, there is under the Comptroller-General an Auditor of Revenue.

PURCHASING AGENT

Through this official all purchases, of whatever kind, which may be required for public service, are made, and under his control is all movable property of the Province. It is anticipated that a very large saving will be effected through the creation of this division of the Controlling and Audit branch. Duplication of plant and materials will be avoided; plant and machinery lying idle at any point can be moved to where they will be of service, and all old or surplus property will be sold instead of being allowed to deteriorate and become a source of loss.

INSPECTOR OF TRUST COMPANIES

Inspection of trust companies is within the jurisdiction of the Minister of Finance. The Inspector of Trust Companies is in charge of the collection of probate and succession duties, a large and important source of revenue.

The collection of the amusement tax is made under the supervision of the Minister of Finance.

BUREAU OF PROVINCIAL INFORMATION

H. W. Hart, Clerk in Charge

The following literature is available for distribution: British Columbia Handbook No. 1, Agriculture of B. C. No. 8, Game of B. C. No. 9, Annual Department Reports Lands, Mines, Agriculture, Forestry, Fisheries, Water Rights, Health and Education, also Land Settlement Board booklet.

LAND SETTLEMENT BOARD

Director.....Lt.-Col. R. D. Davies
 District Representatives—D. D. Munro,

Telkwa, and R. G. Sutton, Prince George. Head Office, Government and Superior Sts., Victoria. Branches at Vanderhoof and Prince George, for convenience of incoming settlers.

The Land Settlement Board of British Columbia, which was brought into existence by the "Land Settlement and Development Act" of 1917, has established nine settlement areas in Central British Columbia. as follows:

Area No. 1—In vicinity of Telkwa, in the Bulkley Valley, comprising 17,000 acres

Area No. 2—On north side of the Nechaco River, with Vanderhoof as the immediate town of importance, comprising 35,000 acres.

Area No. 4—In vicinity of Marten Lake Station, 14,000 acres.

Area No. 5—On the east side of the Fraser River, at Prince George, 18,000 acres.

Area No. 6—Northeast of Smithers, in the Bulkley Valley, 5,300 acres.

Area No. 7—Surrounding Rose Lake, Cariboo District, fifteen miles east of Williams Lake Station, on Pacific Great Eastern Railway, 6,500 acres.

Area No. 8—On west side of Fraser River, north of Alexandria, Cariboo District, 3,700 acres.

Area No. 9—Between Fraser River and Ten-Mile Lake, Cariboo District, six miles north of Quesnel, 4,800 acres.

Area No. 10—Surrounding the three settlements of Francois Lake, Colleymount and Bickle, on both sides of Francois Lake, fifteen miles south of Burns Lake Station, on the Grand Trunk Pacific Railway.

Area No. 11—Along G. T. P., totalling 19,000 acres.

Area No. 12—Adjoins established farms in several places.

Area No. 13—Is in the Upper Fraser Valley between Prince George and Quesnel.

Area No. 14—In the Upper Fraser Valley, Quesnel to Soda Creek.

These are specially selected lands, situated close to transportation, school facilities, etc., which have been held out of cultivation by absentee owners, and which the Land Settlement Board is re-buying for sale to bona-fide settlers.

Prices vary from \$3.00 to \$15.00 per acre, according to location and quality of soil.

Terms are 20 per cent of selling price, in cash, on delivery of agreement of sale, and the balance as arranged to suit purchaser, over a period not exceeding fifteen years, with interest on the unpaid balance at the rate of 7½ per cent per annum, or the prevailing rate at time of sale.

Bona-fide residence on the land shall be established by the settler to the satisfaction of the Board within twelve months from the date of the agreement of sale, and be continued so long as any part of the selling price or interest remains unpaid.

Improvements to all cultivable lands shall be made equal in value to: 50 cents per acre within two years from date of agreement of sale; \$1.00 per acre during the third year; \$1.50 per acre during each of the three succeeding years, or a total value of improvements to the land of \$6.00 per acre within six years, exclusive of buildings and fences.

Where a sale of lands is made to a returned soldier, or the widow of a soldier who was a resident of British Columbia previous to enlistment, and who served overseas in the naval or military forces of Canada, or in any other of His Majesty's naval or military forces, the selling prices shall be abated by the deduction therefrom of the sum of \$500.00; provided that satisfactory proof of such residence in the Province and service overseas shall be submitted. This rebate applies only in the case of the first purchase of land from the Board by a returned soldier.

The amount payable in cash on delivery of an agreement of sale to a returned soldier shall be not less than 10 per cent of the selling price so abated, but in all other respects the terms and conditions of sale shall be as hereinbefore set out; provided that where the returned soldier obtains from the Soldier Settlement Board of the Dominion Government, on the security of the lands sold, a loan of money for the purpose of improving or stocking the said lands, the lands may be sold to him for cash without requiring any observance by him of the conditions as to improvements herein mentioned.

No sale of lands shall be made to any person who by reason of his religious doctrines or otherwise is averse to bearing arms and refuses personal military service and therein fails to undertake the full responsibility of citizenship, or who, under any law, Order in Council or otherwise, has for like reason been exempted from military service within Canada.

Pastoral lands may be stocked to the

satisfaction of the Board, in lieu of the improvements herein mentioned.

A full section of 640 acres may be sold to one settler, if desired, but a quarter-section of 160 acres is the usual sized allotment in Central British Columbia.

A branch office of the Land Settlement Board is to be found at Prince George, where full information as to lands available, prices, etc., can be had upon application. Representatives are in attendance to show prospective purchasers over the land, and assist in every way possible in finding suitable locations.

The Government Agents at Smithers, Fort Fraser, Quesnel and 150-Mile House are also prepared to furnish information regarding the areas within their respective districts.

Further particulars may be had by addressing, The Superintendent, Land Settlement Board, Parliament Buildings, Victoria, B.C.

CATTLE CLUBS

The Land Settlement Board assists in the purchase of livestock for settlers in outlying districts, where at least six members form what is known as a Cattle Club and make a united request to the Board for such assistance. Repayment is arranged covering three years.

CREAMERIES

In keeping with the policy of supplying stock to settlers, and in order to insure a ready local market for all dairy produce, the Government is assisting in the establishment of creameries, at several points throughout Central British Columbia. One of these is at Vanderhoof, in the Nechaco Valley, and another at Quesnel, in the Cariboo District.

SILOS

The rank growth of peavine, vetch and other natural grasses, makes the silo a particularly adaptable adjunct to a farm in Central British Columbia, and the Provincial Government, through its Department of Agriculture, is encouraging the erection of silos, wherever possible. Bulletins on this and kindred subjects are available without charge, upon application to the Publication Branch, Department of Agriculture, Victoria, B.C.

THIS DIRECTORY CONTAINS:

- Section I—A year book of British Columbia Development.
- Section II—A directory of over 2300 cities, towns, villages and settlements in the Province, including names of rural residents, also 4193 lakes, rivers, inlets, mountains are described with location of each.
- Section III—A directory of all business interests in B. C., grouped alphabetically according to trade or profession.

**TWENTY-EIGHT MILLIONS FROM
MINES IN B.C. IN 1921**

**Quantity of Production of Some Valuable
Minerals Greater, But Price Down**

British Columbia mines in 1921 produced minerals which brought in \$28,066,641.

Although the average of metal prices for 1921 was 31 per cent lower than the average for 1920, the decrease in the value of the production for 1921 was only 21.06 per cent less than the actual value of the production of 1920, which was \$35,543,084.

This means that in 1920, on an average, the miners received nearly 50 per cent greater an amount than for a similar quantity of metals in 1921.

This is the financial handicap from outside sources that our miners have had to meet throughout the year, and few of them made a profit at these prices, so that the mining companies deserve great credit for the very good output they made.

Quantity production of some of the valuable minerals was greater last year than in 1920, although the price netted for the product was smaller. These are:

	Quantity.	Value.
Gold, ozs. (placer)—		
1921	11,660	\$ 233,200
1920	11,080	221,600
Gold, ozs. (lode)—		
1921	135,663	2,804,154
1920	120,048	2,481,392

The Fisheries of British Columbia

Commissioner of Fisheries.....Hon. W. Sloan
Asst. to Commissioner.....John P. Babcock

**Value of Canadian Fisheries and Standing
of Provinces**

The value of the fishery products of Canada for the year ending December 31st, 1919, totalled \$56,508,479, as against \$60,250,514 for the preceding year, notwithstanding that the latter was considerably greater than in any preceding year.

During the year 1919 British Columbia contributed fishery products of a total value of \$25,301,607, or 47 per cent. of the total for the Dominion.

As in recent years, British Columbia again leads all the provinces of Canada in the value of her fishery products. Her output for the year exceeded in value those of Nova Scotia by \$10,129,678, and exceeded that of all the other provinces combined by \$9,267,654.

The following statement gives in their order of rank the value of the fishery products of the provinces:

	1918	1919
British Columbia	\$27,282,223	\$25,301,607
Nova Scotia	15,143,066	15,171,929
New Brunswick	6,298,990	4,979,074
Quebec	4,568,773	4,258,731

Lead, lbs.—		
1921	41,402,288	1,693,354
1920	39,331,218	2,816,115
Zinc, lbs.—		
1921	49,419,372	1,952,065
1920	47,208,268	3,077,979

The results obtained prove a very agreeable surprise in comparison with other mining communities.

Prospects of Iron Industry

So far there has been no metallic iron produced in British Columbia, but it has been strongly advocated in many quarters that the conditions are favorable for the establishment of an iron-smelting plant somewhere on the coast. So far nothing definite has materialized, although there is apparently a prospect of such a plant being established.

As is well known, there is on the coast, in the aggregate, an adequate supply of magnetite-iron ore, quite sufficiently free from impurities as to be within the Bessemer limit, to supply ore for such a plant.

Further investigation of the Taseko limonite deposits was made during 1920 by a party sent out by the department of mines. The deposits were also examined in detail by Dr. J. D. MacKenzie of the geological survey of Canada.

The only shipments of iron ore made last year were 985 tons from the Good Hope, Texada Island, and 24 tons from the Puget Sound Iron Company, Texada Island.

Ontario	3,175,111	3,410,750
Prince Edward Is.	1,148,201	1,536,844
Manitoba	1,830,435	1,008,717
Saskatchewan	447,012	475,797
Alberta	318,913	333,330
Yukon	37,820	8,800

Total\$60,250,544 \$56,485,579

The Species and Value of Fish Caught in British Columbia

The total value of each species of fish taken in British Columbia for the year ending December 31st, 1919, is given in the following statement:

Salmon	\$17,537,166
Halibut	4,617,484
Herring	1,109,870
Whales	648,868
Pilchards	371,871
Cod	368,838
Black Cod	116,580
Flounders, Brill, Plaice, etc.	130,940
Soles	90,848
Crabs	55,102
Clams and Quahaugs	47,754
Red Cod	39,413
Oysters	38,659
Perch	19,808
Grayfish	17,822
Shrimps	17,528
Smelts	14,682
Octopus	6,760
Sturgeon	5,636

Skate	3,126	Whiting	284
Oolachans	2,045	Eels	222
Fur-Seals	1,294	Fish Oil	35,097
Shad	667	Fish Offal	450
Tomcod	498	Fish Scrap and Fertilizer	19,306
Hake and Cusk	475		
Bass	336	Total	\$25,319,429

Canadian National-Grand Trunk Railways

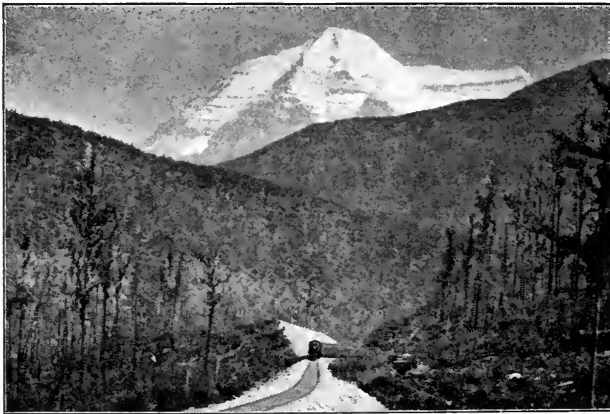

A National Utility for National Service

Twenty-two Thousand Miles of Railway Under Operation in the Dominion Between the Atlantic and Pacific Oceans

THE Canadian National-Grand Trunk Railways, with which is amalgamated the Grand Trunk Pacific Railways and Steamships, is a national utility devoted to the service of the Canadian people, engaged also in the important task of colonization and industrial development in the richly endowed territory which its lines traverses in the nine provinces of the Dominion. The system today comprises 22,000 miles, all of which is under operation. Every section of the Dominion is reached, and connections are made with the United States railways at international

among a desirable class of people the potential natural resources and the many advantages the Dominion has to offer in the fields of agriculture, stock raising, orcharding, manufacturing, mining, and all branches of human effort and industry.

The Canadian National-Grand Trunk Railways is the short fast route to and from the prairies, and affords a short and fast route between Central and Southern British Columbia and all sections of Alberta, Saskatchewan and Manitoba, especially the central and northern sections, making it the most desirable route for the

MOUNT ROBSON, THE HIGHEST AND MIGHTIEST IN THE CANADIAN ROCKIES, IS PASSED IN FULL VIEW BY CANADIAN NATIONAL TRANS-CONTINENTAL TRAINS ONLY. THE MOUNT ROBSON ROUTE.

border points, east and west, and also with finest steamship services on both coasts carrying traffic to and from all countries in the Orient and Occident. The rolling stock equipment is of the highest order, and is being constantly increased to meet traffic demands. The standard passenger trains of the railways are the very embodiment of travel comfort "The Continental Limited."

Industrial and Resources Department

To promote land settlement and industrial development, an Industrial and Resources Department has been organized, with offices in Eastern and Western Canada, Great Britain and the United States. These offices are in charge of men familiar with the needs and possibilities of the country, who are conducting a well-planned practical publicity campaign to make known

transport of commodities that are interchanged between these provinces. As a transcontinental and international carrying route its advantages are such that appeal to discerning shippers. The service cannot be excelled.

The Grand Trunk Pacific Railway traverses the heart of Central British Columbia, serving the choicest touring, agricultural, mining and industrial districts, including the fertile Bulkley and Nechako Valley districts, reaching the coast at Prince Rupert. From a tourist point of view, some of the grandest scenery of the Canadian Rocky Mountains is located on the Canadian National System. In fact, from its entrance of the mountain country through the Yellowhead Pass, Jasper Park and Mount Robson Park, along the Bulkley and Skeena Rivers, it is a continuous panorama for unsurpassed mountain scenery.

It is a tour of the thousand wonders. The steamships "Prince Rupert" and "Prince George," of the steamship service ply between Prince Rupert, Anyox and Stewart, to the north, and Prince Rupert, Swanson Bay, Ocean Falls, Vancouver, Victoria and Seattle, to the south. These steamships are the finest and fastest in the North Pacific Coast regular service, and are modern in every detail. The Grand Trunk Pacific Steamship Company also have a line of vessels operating between Queen Charlotte Islands, Prince Rupert and Vancouver. The districts of Central British

which is only four miles distant.

At Jasper National Park, 4,400 square miles of the finest part of the Canadian Rockies, has been set aside by the Dominion Government as a perpetual playground, animal sanctuary and Alpine resort. The Canadian National have built and operate under their own management Jasper Park, a "bungalow" hotel, set on Lac Beauvert, in full view of the most remarkable mountain scenery it is possible to conceive.

Immediately up the valley to the south is Mount Kerkeslin, an imposing monolith, 11,000 feet, blocks the valley. Swinging

THE MODERN TWIN-SCREW STEAMSHIPS, PRINCE GEORGE AND PRINCE RUPERT, CONNECT THE TRANSCONTINENTAL RAILS AT VANCOUVER WITH ACROSS CANADA LINE TERMINATING AT PRINCE RUPERT. THE SHELTERED INSIDE PASSAGE USED BY THE BOATS IS OF SUBLIME BEAUTY AND PERFECTLY SAFE.

Columbia afford opportunities beyond number for farming, dairying, ranching, mining, lumbering, fishing, etc.

The route of the Continental Limited, the crack all-steel train of Canada, affords the finest scenery to the across Canada traveller. The canyons of the Fraser and Thompson Rivers, in their wild majesty, are unique, and are traversed from most advantageous viewpoints. The roadbed is smooth, the grades easy, the passes low and the mountains the highest in Canada. All trains stop at Mount Robson, the highest mountain in the Canadian Rockies. The view is unsurpassed in the world. Every facility is given for viewing the mountain,

the view to the west, majestic Mount Edith Cavell, with its Ghost Glacier, comes into view. Farther to the north "The Whiskers" Pyramid looms up. Looking down the valley of the Athabasca a succession of mighty peaks follow one another with kaleidoscopic effects and immediately behind the Lodge and guarding it are the Maligne Range, steep and forbidding, guarded by Roche Bon Homme.

Transcontinental passengers may make a delightful stop over at Jasper at the Lodge at minimum expense.

The combination of the two transportation systems under one management has effected a very strong transportation sys-

tem. It is felt that the development of agricultural and industrial resources will be given impetus, which will place British Columbia in the forefront in development in the next decade. The two routes, which are optional, are a powerful drawing card for tourists who buy coming west on one

line and return on the other, and see a very large proportion of British Columbia and much magnificent scenery.

Head offices for all these lines and steamships are located in Vancouver, and the different thoroughly organized departments are at the service of the public.

The Kettle Valley Railway

THE Kettle Valley Railway, through Nature's wonderland, is the connecting link in a new route via the Crow's Nest Pass and the Kootenays, through the Okanagan Valley and the Coquihalla Pass in the Cascade Mountains to the Pacific Coast.

The interesting and varied characteristics and resources of the country traversed by this route will claim the attention of the traveller, whether the sportsman in search of hunting grounds "De Luxe," the fisherman longing for the haunts of the speckled trout, the sturdy miner who would wrest Nature's riches from the mountain sides, the weary business man who feign would pause and rest awhile at the fountain of youth, the hardy woodsman whose interest is awakened by the abundant forests, the fruit grower whose thoughts turn back to nature, or those of artistic temperament who delight in the marvellous scenic attractions that are not equalled in any of the famed mountain routes of the Old World.

Leaving Midway, the valley of the Kettle River, from which the railway takes its name, is followed to its sources, passing through Rock Creek, Westbridge and Carmi, rich agricultural districts where fruit and grain are extensively grown. At Carmi there is considerable development in gold and silver mining. From here there is a gradual ascent to the summit at McCulloch station. Within a mile and a half of this point are seven lakes, all of them abounding with trout. Bear hunting is also good in this vicinity, as well as for goats at certain seasons.

Descending the west slope of the mountains, the Kelowna Valley is soon seen in the distance, a panorama beautiful beyond comparison, the orchard tracts reaching from the shores of the Okanagan Lake to the foothills of the mountains, the blossoms of fruit trees mingling with the verdant green of the mountain side.

A very interesting section of this part of the line is the Canyon Creek Loops, which present some novel engineering feats, as well as magnificent scenery. Through the rugged rock walls at the entrance to the canyon is seen, as if placed there for contrast, a glimpse of the fertile valley below.

Passing on along the shores of Chute

Lake, and down the mountain side, a view of the Okanagan Valley, "The California of Canada," suddenly bursts into view, the placed Okanagan Lake and to the south of it Lake Skaha, and between them Penticton, the "Tourist City." Bordering the lake beautiful homes surrounded by orchards reach to the mountain background of the setting.

Penticton, the city beautiful, the tourists' playground, with its mild, even climate, never excessively hot or cold, beckons you to forget care and become a child again among its fruit and flowers. Just across the street from the Union Depot is the Incola Hotel, operated by the Kettle Valley Railway, a hostelry where service is the first consideration. The rooms are all large and well appointed, the spacious rotunda and wide veranda, as well the sun parlor, writing rooms, etc., are all arranged for the convenience of the visitor. The diningroom has in store a pleasant surprise—the eggs, butter, cream, vegetables, fruit, etc., are received fresh daily from the Kettle Valley Railway's experimental farm.

ALONG THE COLDWATER RIVER

The best is none too good. Facing the hotel and just across the Lake Shore Drive is the bathing beach, the most delightful fresh water beach on the continent, where bathing may be enjoyed from early spring until late autumn. The beach of pure sand slopes gradually out for several hundred feet, so that small children may bathe in perfect safety. The Aquatic Club building is adjacent, and its privileges are available to visitors. Excellent motor roads radiate in all directions, cars are always on hand at the several garages, and drives may be taken as fancy directs, along the Lake Shore Drive to Summerland and Peachland, among the orchards, where in proper season the luscious peaches, pears, apricots, apples, grapes, etc., may be gathered. To the south, around Lake Skaha, where a magnificent view of the surround-

FRUIT ORCHARDS SURROUNDING PENTICTON

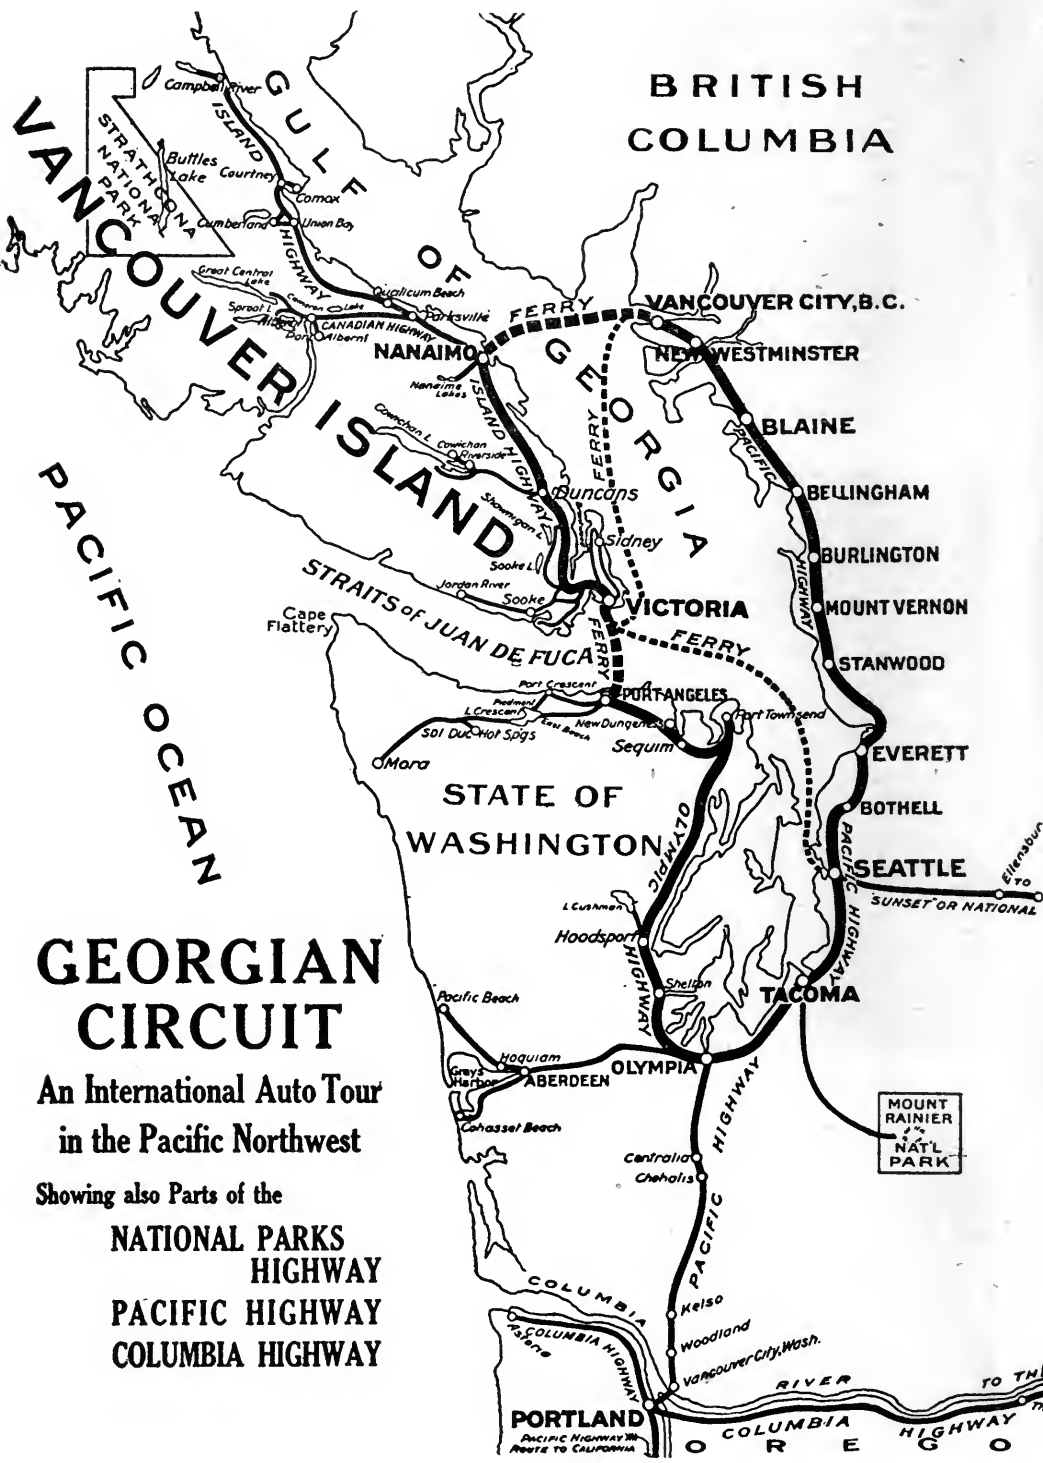

BRIDAL VEIL FALLS

ing country is obtained, on past Swan Lake to the International Boundary, or to the westward over a mountain pass to the Similkameen Valley, the roads over the mountains being almost the equal of a city boulevard. Near at hand from the Incola Hotel is a nine-hole golf course, where the pleasures of the game may be indulged in practically all winter. Fishing for silverside trout is good in both the Okanagan and Skaha Lakes nearly all the year round, and mountain trout are found in abundance in any of the numerous streams flowing into the lake. In a two-hours' journey by train up the east side of the lake, those who are fond of deer hunting will be in the sportsman's paradise. With the unexcelled facilities for bathing, boating, motoring, golfing, fishing, hunting and other forms of recreation and enjoyment, Nature has indeed been lavish in planning Penticton and its surrounding environments.

Here is also the southern terminus of the line of the Canadian Pacific Railway steamers on the Okanagan Lake, a delightful trip up the lake and return the same day may be taken on the palatial steamers "Okanagan" and "Sicamous," which preserve the well-known high standard of service on Canadian Pacific boats.

B RITISH COLUMBIA as an entire province offers many attractions to the automobilist, but it may be taken for granted that once inside the boundary of the Province, no matter from what part the tourist may come, Vancouver will be his Mecca. Victoria, New Westminster, Nanaimo, Kelowna, Penticton, Nelson, Cranbrook, the beautiful fruit country of the Okanagan, high and breezy Kamloops, Revelstoke, and many other places are sure to prove attractive, but Vancouver has a fascination and a beauty all its own. A city vocal with the hum of industry, a city of myriad lights, its streets full of animation and color, its grand park, which for scenic beauty has won world wide fame, its many centres of intellectual and artistic culture, make an irresistible appeal.

Vancouver is a city of a hundred thousand souls. Nature has poured out in its surroundings a lavish profusion of every beauty of earth, and sea, and sky. Mountains lift their snow white heads to the glowing heavens. All about the city are valleys, robed in richest green, and gemmed with lakes and glittering streams. The glory of the sunset, such a sunset as can only be seen in Vancouver, is almost matched by the splendid tints of the autumnal forests. At night the shimmering stars are mirrored deep in the shining sea.

Vancouver is a city amidst scenes full of beauty and radiant with color, and Vancouver is rising to an appreciation of the power of beauty, of fragrance, and form and color and light—the music of tumbling and falling waters.

All around the city there are spots easily reached in the Fraser Valley, Huntingdon, Abbotsford, Chilliwack, Harrison Hot Springs, Steveston, Whytecliff, (Horseshoe Bay), Buccaneer Bay, Sechelt, Cloverdale, Ladner, Mission, and many other beautiful spots, which tempt the tourist.

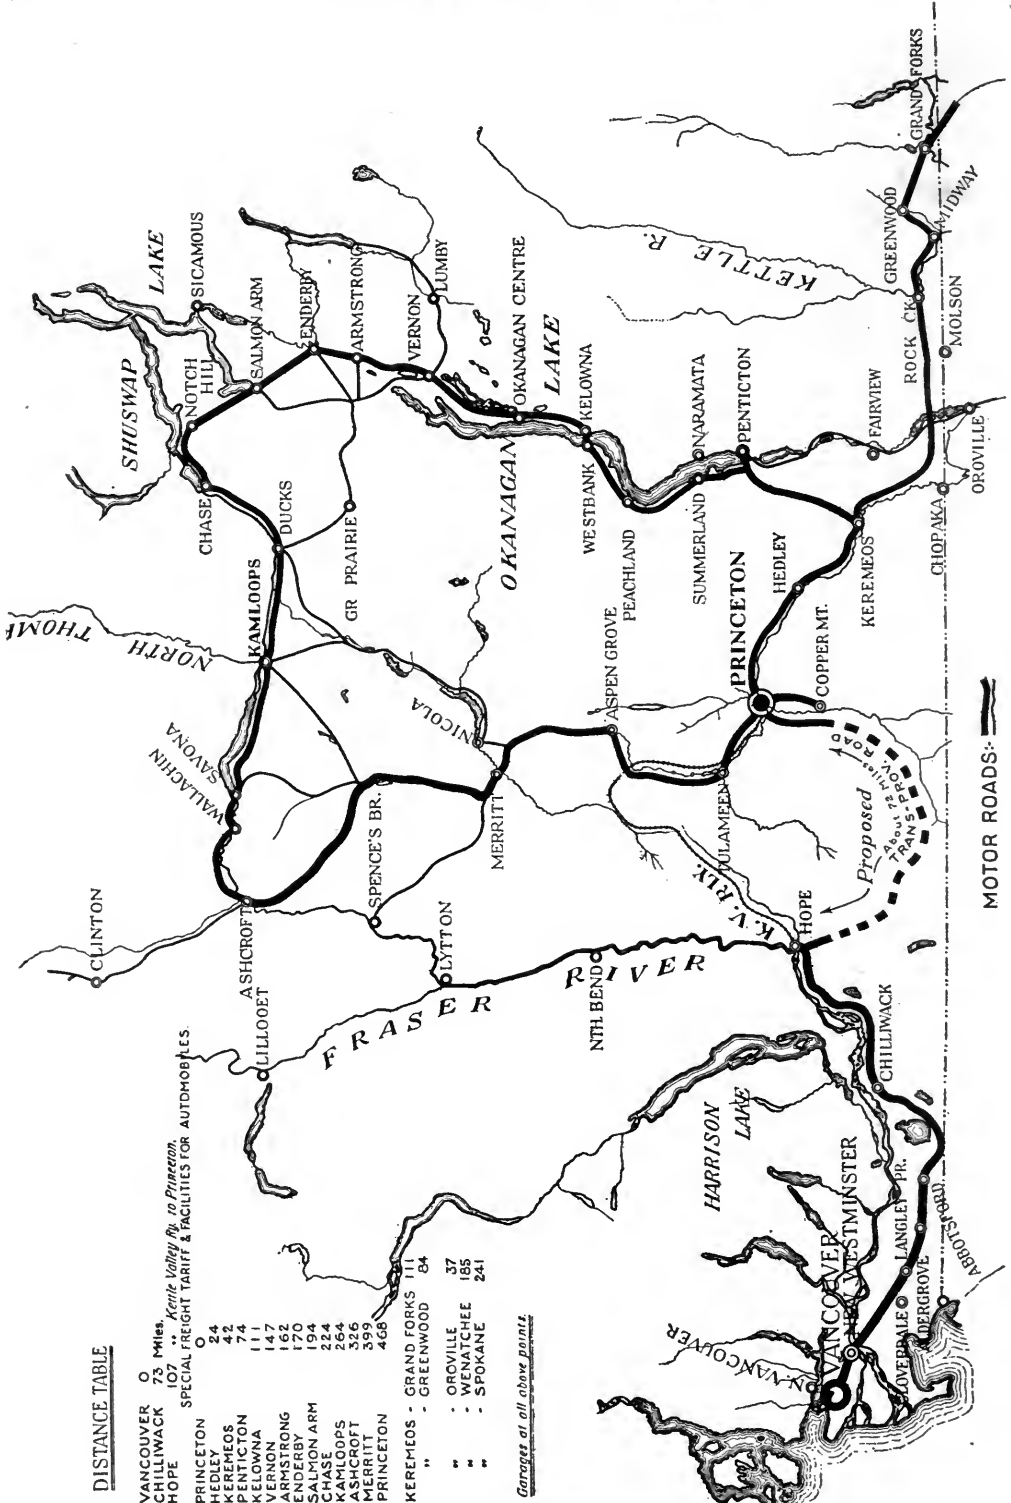

Vancouver gives you access to the mighty Fraser, navigable for one hundred and fifty

miles, so that if, at any time the motorist wishes to change his holiday venue he can leave the road for the river. Should he be a mountaineer he has but to cross the ferry which conveys his car to North Vancouver, and within a little while he is among the peaks and glaciers, table lands, crevasses and summits which drive such mountaineers as Whymper and Longstaffe wild with ecstasy and make them declare that British Columbia is a dozen Switzerlands rolled into one.

Howe Sound is dotted with islands. Nowhere is there a more beautiful trip than to Bowen Island, where there is excellent hotel accommodation. Where can be found a more enjoyable trip than that to the Wigwam Inn, Indian River. Into the short voyage there are crowded experiences such as a traveller could hardly hope to have in several days of travel. Mountains rise here with precipitation into the sky, while some seem ascending gentle slopes inviting a walk more than a climb. So loved, so familiar, are these mountains that they are called pet names suggested by their configuration. "The Lions," no misnomer, for the summits of two glorious mountains are just like lions couchant guarding the portals of the city. Millions of post cards of the Vancouver Lions have found their way to all corners of the earth. Soldiers in the trenches viewed the picture with the same affectionate veneration as the Japanese feel for Fujiyama, the sacred mountain.

The mountain range of Vancouver has also a "Sleeping Beauty," a glorious mountain top, which, reposing in the evening sunlight, seems to rest and breathe and one almost expects to see it wake up to the joy of life. Gleaming glaciers reflect brilliant sunshine in every line of purple, yellow, mauve, blue and gold. Vancouver is such a city as would have tempted Turner to fresh glories. It is a city which seems to breathe the spirit of freedom and liberty, and many men returning to this

MOTOR ROADS:

city after incarceration in a German prison have breathed the exultation of William Tell, though he may not have voiced his feelings in the identical words which Sheridan Knowles put into the mouth of the beauty loving and liberty loving patriot.

The charm of Vancouver is its happy Bohemian unconventional spirit. English Bay has not only the sylvan beauty, but the primitive freedom of an ancient Eden. Should there be an invalid in delicate health she can find along the fringe of Stanley Park sheltered and wooded nooks and corners with the silver sand at her feet, and the blue waters within her view, where she may bathe in sunshine, and where the winds of heaven will not visit her cheek too roughly.

Vancouver is a city for the young and for the old. A city for the sturdy and athletic man and woman. It is a paradise for sportsmen, for in their proper seasons there are fishing, shooting and big game hunting within reach of all. The good shot may soon fill his bag with grouse, pheasant, duck or mallard. There is sea fishing for those who like the more robust forms of exercise for rod and line, while many a mountain stream will test the skill of the most expert fly fisherman. There are golf links within easy reach of the heart of the city. Baseball grounds so excellent that the most famous teams are always delighted to play in Vancouver. Lacrosse and bowling are pastimes well maintained, nor does the city lack attention to the aesthetic side of life, for there are intellectual and artistic associations, clubs and coteries such as cities many times the size and age of Vancouver might well be proud to boast.

"The play is the thing," says Hamlet, speaking of dramatic matters, and to parody the Prince of Denmark, the motorist will say with emphasis, "The road is the thing" which counts when you are undertaking a trip for health or pleasure. You may have a good car, the weather may be all that you could desire, and the scenery enchanting. But if the road is bad, all the keen edge will be taken off your enjoyment, and the praises you would be bestowing on the landscape will give way to irreverent cuss words.

British Columbia has splendid highways which have been constructed from time to time under different administrations, the work being done, it must be admitted, spasmodically, but on the whole well done, and the sum total is an aggregate of which such a young country may well be proud.

You might tour over the whole American continent for twelve months and at the end of that time if you came to take stock of what you have seen, you would recall the International Georgian Circuit with the greatest amount of pleasure. Into a week's

tour in this region, which lies between the southwest portion of the Canadian province and the northwest corner of the United States, you would have found every varying scenery, delightful prospects of sea and sky, and that British Columbia was of natural beauty "all compact."

Let us assume for a moment that the tourist reaches us from Seattle. He will have seen the delightful country of Tacoma and Olympia, and enjoyed the scenic drive in the Olympic Peninsula. Having been ferried across the strait he will reach Victoria, B. C., and there will make the acquaintance of the fine highways which have with immense labor and at immense cost been hewn out of the primitive forest by men, who had a vision of what British Columbian cities would be, and who saw in the "mind's eye" the roads necessary for linking the companionable population together.

Vancouver Island, Vancouver City, New Westminster, Nanaimo, have all a number of delightful pleasant drives and there are rival claims as to which are the most pleasant. Each city has its admirers and its champions, and there is a friendly rivalry, a healthy emulation, which leads to the achievement of good results.

Candor compels us to state that on British Columbia the hand of war has been laid heavily. Much "man power" has been diverted from useful pursuits to the harmful, but alas necessary, destructive work of fighting in Flanders. Millions of dollars which would have made and maintained necessary roads in British Columbia have been necessarily spent in England, France and Belgium. But though during the past four years construction work has been far less than it should have been, yet the great main arteries of the Province have been kept in fairly good condition, and roads have not been allowed to fall into such neglect that to put them into good shape will be very expensive. In matters physical, financial, and one might add moral, British Columbia has a reputation for speedy recuperation, and unless there are unforeseen circumstances, of which we have at present no hint, the Province will soon become not only her former self, but have an added charm, strength and beauty. One might be tempted to go into details of the attractions which British Columbia offers to the tourist, but reasons of space, not want of matter, tempt us to summarize.

The Canadian highways, the neighborhoods of Cameron Lake, and Alberni, the lovely country around Cowichan Lake, the beauty of Esquimalt Harbor and the Malahat Mountains, all these delightful places have been often described in terms of the warmest admiration.

Have you a turn in your mind towards things scientific you will naturally take an interest in Observatory Hill, upon which is the second largest telescope in the world.

Are you a lover of the sea, you will hie to Beacon Hill, Victoria, and admire the innumerable beautiful bays which lie within your view, especially Cadboro Bay, where the Royal Victoria Yacht Club has its home.

Let us return to Vancouver City and its surrounding beauty spots, such as "Beautiful Burnaby" with its lovely lake, on the edges of which several artists have built their homes. Mission and Harrison Hot Springs, the Carlsbad of Canada, will not be neglected by the motorist, and nearer to Vancouver City is the Capilano Canyon, famed for its romantic beauty and the excellent accommodation to be found in its vicinity.

Out of Vancouver City runs the Marine Drive and at Point Grey the traveller will certainly pause to admire the beautiful landscapes of a country so salubrious that it has been chosen as the site for the University of British Columbia, and the choice has been universally commended.

Further afield is the Okanagan, Kamloops and Lillooet, and anybody with a feeling for the historic will not forget Cariboo, for along the Cariboo trail came the pioneers of the Great West. All over the great areas we have named there are thriving little communities each having its own individuality, its special fascinating attractions. Rossland, Trail, Nelson, Revelstoke, will certainly be visited by those who have the time, and much information will be gleaned from those who have seen the district grow from small beginnings. So healthy is the climate that Time, though he may write his wrinkles on the brow of the rugged pioneer, yet attacks slowly the natural force of vigorous constitutions and the traveller will be surprised to find how many old forty-niners linger to tell of bygone days, and to prophesy great things for the British Columbia of the future.

Motorists visiting Vancouver can obtain road maps and touring information from the Vancouver Automobile Club, headquarters, Hotel Vancouver, the Island Touring Bureau, Victoria, and any automobile club in the Province.

RESUME OF BUSINESS CONDITIONS DURING THE YEAR

By J. P. D. Malkin, Esq., President Vancouver Board of Trade.

Lumber: The cut in 1921 was 947 million feet, as compared with 1228 million in 1920, a startling reduction.

This decline in our main industry has been reflected in general business to a marked degree.

Pulp and Paper: Newsprint and pulp produced in the province was approximately 143,000 tons, which is about 10 per cent less than in 1920, but I am informed that prospects for an increased production in 1922 are very hopeful.

Shingles: 1921 production was 2,282,215,000, an increase of 85 million over 1920. Unfortunately for the industry, although the production was greater, the value was less, owing to lower markets. The value for 1921 was \$9,000,000, and for 1920, \$10,000,000.

In other words, 85 millions more shingles produced, and \$1,000,000 less received.

Logs: Total scaled in 1921, 1790 million feet as against 2046 million feet in 1920, a reduction of 12½ per cent.

In the export of logs 1921 was a good year, as we find that we shipped 90 million feet as against 28 million feet in 1920.

I cannot emphasize too strongly the great need of conserving our enormous timber wealth. With so great a wealth of standing timber, amounting to 62 per cent of the total stand of Canada, we are

inclined to forget that we are making great inroads upon this vast resource.

Mining: A decrease of \$6,400,000 during 1921 is reported in the mining industry. This was due to a large extent to a worldwide stagnation of the metal markets. The total value of British Columbia's metal output for 1921 amounted to \$13,232,000, as compared with \$19,665,965 for 1920.

Coal: The value of the coal output for 1921 was \$13,272,903, as compared with \$13,450,164 for 1920. There was practically no difference in production. The total value of British Columbia's mining output for 1921 is a little over \$28,000,000, as compared with the value of 1920 of \$35,543,000.

The mining interests of the province look forward to 1922 as being the beginning of greater development in the mining industry, and all indications seem to point to a big revival in this, one of the most important factors in the successful development of our province.

Port Development: The Government is rushing to completion the new Ballantyne Pier. The C. P. R. are very shortly to commence work on their new pier.

Cleaning Plant at Grain Elevator: It is reported that \$85,000,000 has been voted for this necessary work.

Agriculture: The total agricultural production of the province for 1921 was valued at slightly over \$60,000,000, as compared with \$68,926,000 for the year 1920.

This, however, does not represent a decrease in production, but rather a decrease in value per unit. There was in reality an increased quantity production averaging about 30 per cent. The decrease in unit value was about 40 per cent.

Taking dairy products as one case in point, the returns show approximately three and a half million pounds of butter produced, which represents an increase of about 1,000,000 pounds, but the value of slightly over one and a half million dollars represents a decrease from the previous year of \$140,000.

Poultry products showing approximately four and a half million dozen eggs represent an increase of about 500,000 dozen, but the value fell over \$600,000 short of that for the lower quantity produced in 1920.

In grain production there were 4,000 acres more under crop than in the previous year with an increase in yield of approximately 1,300,000 bushels, but the value dropped by about \$1,200,000 from that of the previous year.

Fisheries: The total salmon pack for 1921 was approximately 605,000 cases, nearly 50 per cent less than in 1920. The total value of the salmon catch was \$5,000,000. The halibut catch for 1921 reached the total of 32,000,000 lbs. Other fish 12,000,000 lbs.

Manufacturing: At no time in the history of our province has there ever been such a feeling of co-operation between the consumer and the manufacturer.

Shipping: 1921 showed a marked increase in the shipping of the port. There are now 39 steamship lines plying in and out of our harbour. The gross tonnage was 9,916,748 tons, while the cargo values were: Imports \$197,406,832, exports \$85,270,048.

A very satisfactory addition to the business of the port has been the development of the grain movement through Vancouver.

When the crop year for 1921-22 is concluded, we anticipate that the returns will show that approximately six million bushels of grain will have passed through the port.

Bank Returns for 1921: The Bank clearings for the year 1921 were \$708,205,942, a decrease over 1920 of about 18 per cent.

Post Office Revenue: The revenue of the Post Office for 1921 was \$941,444.

Building Returns: The building returns of the city for 1921 were valued at \$3,045,132, covering 2,451 permits, practically no change over 1920.

After hearing these, the production figures in our basic industries, we are justified in being optimistic, because if we add together the value of our timber, mines, fishing, agriculture, we shall find an approximate production in these lines alone (excluding all other products, both manufactured and raw, of which there are many), of 200 million dollars. Divide this by our population of 523 thousand, and we have a production of 382 dollars per head, men, women, children, Indians and Orientals. A total, I assure you, which is one to be proud of, and one which is probably not exceeded and hardly equalled anywhere in Canada, or on the American continent.

Remember these are the figures of a year which will probably go down in history as one of the "blue" years, one of the years of extreme depression. 1922 will be a year of slow recovery and convalescence. For we have weathered the worst part of the worst storm the world has ever seen, or is likely to see for many years to come, and while conditions are still critical, and while we have many difficult days ahead, I feel the worst is over.

It is true we have not yet a complete price readjustment, and until we have, business cannot become normal. At present the whole business world of Canada is running along with a flat wheel. Prices in some industries are entirely liquidated, and in others not.

THIRTY-NINE STEAMSHIP LINES ENTER VANCOUVER HARBOR

WRIGLEY'S BRITISH COLUMBIA DIRECTORY

1922

(Copyright, Canada, 1922, by Wrigley Directories, Limited)

A gazetteer of cities, towns, villages, stations, post offices and settlements in the Province, described in alphabetical order, followed by a directory of firms, employees, professional men, leading citizens, farmers, fruit-growers, stock-raisers, lumbermen, miners, fishermen, etc.

The Publishers will appreciate notice on part of subscribers of additions or corrections for the 1923 edition.

Aaltenhash Inlet, on the northwest coast, 10 miles north of Swanson Bay and 35 miles south of Hartley Bay. Aaron Point, on the north side of Victoria Arm, near The Gorge, Victoria.

Abbotsford

The town of Abbotsford is situated in the Fraser Valley, 51 miles from Vancouver, 39 miles east of New Westminster and about 3½ miles from the International Boundary line. It lies on the old Yale Road with Matsqui Prairie about 1½ miles to

Mountain, separating Matsqui and Sumas Prairies. In this height of land lie very valuable clay deposits. On the north and west of the town lies the Municipality of Matsqui. It includes a considerable area of high timbered land and Matsqui Prairie,

MAIN STREET, ABBOTSFORD, B. C.

the north and Sumas Prairie about the same distance in a southeasterly direction. The country to the south and west is high bush and timber land. Much of it is logged off and is being rapidly cleared and settled. Rising from the town and extending in an easterly direction is Sumas

a fertile, level area of some 15,000 acres, lying along the south shore of the Fraser River. It is a most important part of the famed Fraser Valley, admirably adapted for dairy farming, as the winters are mild and all the necessary fodder crops can be raised on the land. A sur-

ABBOTSFORD

BRITISH COLUMBIA

plus in hay, oats and roots has been produced and finds a ready market in New Westminster and Vancouver, as well as locally among the small farmers, logging camps, etc. An ideal section for the small farmer, bee-keeper, poultry farmer and dairyman. The splendid shipping facilities make Abbotsford a most inviting location for manufacturers, industrial plants, etc. On the south and east the townsite of Abbotsford is bounded by the Municipality of Sumas. It includes much of the high land to the east of the town and Sumas Prairie, a large extent of flat land lying very low, not much above the level of the Fraser River. It is good land easily worked and very fertile. A proposition to dyke the Prairie and drain Sumas Lake, which covers between 25,000 and 30,000 acres is now being undertaken by the Provincial Government and should be completed at an early date. The town is served by the Canadian Pacific Railway, the B. C. Electric Railway (main line from Vancouver and New Westminster to Chilliwack) and the Great Northern Railway, connecting with the C. N. R. at Canora. Has C. P. Telegraph and B. C. Telephone. It is also a customs port of entry, with a resident collector. The Pacific Milk Co., Ltd., operate a condensary at DeLair, about 1½ miles south of the town. The population of the town actually resident within the townsite is now 350 persons, but with those residing in the immediate vicinity it is estimated there is a local population of about 900. The population of the district has been carefully estimated at about 4,000 to 4,500. Write secretary, Board of Trade, for information regarding Abbotsford District, climate, land, industrial sites, etc.

Alberni

When the visitor arrives in the Alberni Valley he realizes what the feelings of the poet, Tom Moore, were when he viewed the Vale of Avoca, in County Wicklow, where the waters of the Avon and Avoca meet, and the poet exclaimed: "There is not in the wide world a valley so sweet." Here is a valley where the heart of man can find supreme satisfaction, if he is not wedded to the gridiron-patterned city of cement and brick, with its accompanying discordance of street sounds, its senseless rush and hurry, its poor-rich people with their half cared, care-marked faces. Alberni, then, must be considered first as a dis-

rasberries, and all that a mild temperate area can produce. There are mountains which are a perpetual charm to the eye: lakes 20 miles long and alive with fish, as are also the rivers and the sea, which touch the south end of the valley and gives a fine harbor for shipping of any dimensions that may call here. So we have mountains, valleys, lakes, woods, fruit, fish, game in abundance, mild climate, minerals (coal has been found in the valley), the sea—in short, all that is necessary to the mind and body of mankind. This valley will have a prosperous future. The wheels of prosperity are already humming. At the south end of the Alberni Valley are the twin cities of

trict, and now for a summary of this truly wonderful area: The Alberni Valley is about 25 miles long and an average of about 4 miles wide. This is practically all capable of being turned to agricultural account. Today, the bulk of it is covered with one of the grandest stands of timber that North America can show. Here is where the giant firs and cedars form a reserve of wealth that ensures activity for thousands of people for many years to come. Down this wonderland valley flows the Somass River, which, before reaching the sea at the end of the valley, is strengthened in volume by the waters of the Stamp and Ash rivers, and flows on through some of the most enchanting beauty spots that form the ideal homesites of this district. The climate is mild; all kinds of fruit, such as apples, pears, cherries, plums, strawberries, peaches.

Alberni and Port Alberni, which adjoin and form practically one, being divided merely for municipal purposes. In these towns will be found up-to-date stores, sawmills, churches, schools (including high school), hospital, and all essentials to modern requirements. Has office of Provincial Government Agent, Provincial Assessor and Collector, Land Commissioner Alberni Land Recording District, Alberni District Registrar of the County Court, Provincial Police Constable, Gold Commissioner and Mining Recorder Alberni Mining Division, Agent Dominion Department of Indian Affairs, Government Telegraph and Telephone. A branch of the C. P. R. serves the valley and the two towns, and gives regular service to Victoria, Nanaimo, Vancouver and all points on the C. P. R. system. Besides rail communication, a steamship service connects

ARGYLE

a station on the B. C. E. Ry., New Westminster branch of the Lulu Island line, 7.5 miles from New Westminster and 3 miles from Marpole, under which see names.

Argyle Creek, 4 miles long, tributary of St. Mary's Creek.

Aristazable Island, 32 miles long, lies off the southwest coast of Princess Royal Island.

ARLINGTON

a farming settlement on Nanoose Bay, east coast of Vancouver Island, 16 miles northwest of Nanaimo. See Nanoose Bay for names.

Armstrong

Armstrong is situated in the northern part of the Okanagan Valley, on the C.P.R. running south from Sicamous to Okanagan Lake. It is about thirty-two miles south of Sicamous, and about twenty miles from Okanagan Lake. The city is within three miles of the Selkirks, on the east, which rise abruptly to a height of from three to five thousand feet above the valley. On the west the mountains are more distant. The slopes of the mountains are covered with evergreen forests. The Valley at Armstrong is from five to eight miles wide. There is sufficient rainfall in this part of the Okanagan so that irrigation is not necessary. The snow fall in winter, which is usually quite copious, and which never drifts, ensures plenty of moisture in the soil should the rain fall be scanty any season. By careful cultivation, even the driest benches can be made to produce abundantly. The climate is healthful.

The immediate surroundings of Armstrong consists of wonderfully fertile bottom land, many thousand acres in extent. Here the finest celery in the world is raised, as well as vegetables of all kinds. Grass also grows luxuriantly on this bottom making it possible to pasture

three cows for a season on one acre of land.

The bench land about Armstrong is well adapted to mixed farming. An ever-increasing acreage is being put down to alfalfa, which does well in the clay soil of the benches. Three crops can be harvested each season. Dairying is engaged in to a considerable extent and is a growing industry. A well-equipped up-to-date creamery runs throughout the year and is doing a prosperous business. Grain does well on the benches, especially winter wheat. Small fruits, apples, plums, cherries, etc., thrive well. The climate is well adapted to poultry and bees. In the outskirts of the municipality of Spallumcheen, of which Armstrong is the centre, are extensive ranges for cattle and horses. Here may still be seen the picturesque but fast disappearing cowboy, with his striking dress and equipment.

Good roads for automobiling connect Armstrong with all points up and down the Valley, as well as with Kamloops on the west, and Lumby and other points on the east. The scenery along these roads is as fine as earth, air and water can make it. Camping places for summer outings are numerous on Okanagan Lake

one arm of which is only ten miles distant, and on Mabel Lake, which lies twenty miles to the east of Armstrong. The Shuswap Lake to the north, the Okanagan Lake to the south, Mabel and Sugar Lakes to the east, and Salmon River to the west, abound in many kinds of fish, e.g., trout (brook, rainbow, Dolly Varden, salmon, etc.); deer are plentiful on the mountains; grouse and wild water-fowl of several varieties are within easy reaching distance. The sportsman finds a good field in Armstrong and its environs for the exercise of his skill.

The selling prices of land in the Armstrong District are approximately as follows:

Orchard land (the higher benches with lighter soil) cleared, \$75 to \$150 an acre; bearing orchards \$300 to \$600 an acre; mixed farming lands (the lower benches with heavier soil) under cultivation, \$85 to \$200 an acre; uncleared, \$20 to \$85 an acre; bottom or celery land (the black muck bottoms that made Armstrong celery famous) \$300 to \$400 an acre.

Armstrong possesses one of the largest and best equipped consolidated schools in the west as well as a splendid high school under four efficient teachers in an excellent modern building. Both schools stand high in the educational life of the Province.

Armstrong's new hospital, thoroughly up-to-date, well equipped, and of solid brick construction was opened in the fall of 1921.

The water for all purposes in the city is secured from a mountain stream. The supply is always abundant, cool and pure.

The city owns its electric light plant and the service is continuous. Churches of the leading denominations are established and have resident pastors.

The population within the incorporated area is 1,000.

Arrow Lakes, consisting of the Up-
per Lake, 45 miles in length, and the
Lower, 50 miles, are situated in West
Kootenay District, 27 miles south of
Revelstoke, and are formed by the
broadening of the Columbia River.
Arrowhead is at the north end and
Robson at the south end. They vary
from 3 miles to ½ mile across.

Arrow Lake Division, a mining di-
vision taking in the watershed
around the Arrow Lakes, with re-
corder's office at Nakusp, sub-office
Vernon.

ARROW PARK

a P.O. and settlement in Slocan Prov.
Elec. Dist., on the Columbia River,
16 miles south of Nakusp, the busi-
ness centre. Reached by C.P.R. lake
steamers. Has telephone and Govt.
telegraph. Population, 170. Angli-
can church. Local resources: Log-
ging, fruit growing, etc. About 3,000
acres are open for settlement. (See
also East Arrow Park.)

Arrow Passage, on the north of Benwick Island, 5 miles south of Broughton Island.

ARROWSMITH

a flag station on E. & N. Ry., 14 miles from Alberni and 118 north of Victoria, in Alberni Provincial Electoral District, 1,400 feet altitude. Cameron Lake is nearest station and

telegraph office of C. P. R. Local resources: Timber, good fishing and hunting at Cameron Lake and vicinity. Only residents are the section crew. Address mail via the Cameron Lake post office.
 Costin J sec foreman

Arrowsmith Mountain, 12 miles east of Alberni, Vancouver Island.
 Arrowstone Hills, 13 miles north of Ashcroft.

Arthur Point, on north of Eden Island.

Arthur Seat, a mountain 3 miles southwest of Spence's Bridge.

Ashby Point, on northwest of Hope Island.

Ashcroft

on the main line of C. P. R. and C. N. R., 204 miles east of Vancouver, in Yale Provincial Electoral District, Yale Land Registry District (Kamloops) and Yale County (Kamloops). Is the gateway by road to the Cariboo Country, and the roads are splendid for motoring. Is the branching off point from the east on the way to Vancouver via the C. P. R. and the C. N. R. In the centre of the irrigated belt, and noted particularly for its famous potatoes and beans. Altitude, 1,004 feet. Has office of Provincial Government Agent, Assessor and Collector, Land Commissioner of Yale Land Recording District, District Registrar of Supreme and County Courts, Provincial Police, Mining Recorder of Ashcroft Mining Division and Sub-Collector of Customs, outport of Revelstoke. Has Dominion and Canadian Northern Express. Public school. Population, 500. Local resources: Stock-raising and mixed farming.

ADAM, WM. C.

Provincial Assessor.

ATLAS

a salmon cannery on the Fraser River, owned by B. C. Packers' Association, 517 Granville Street, Vancouver.

At-Lat-Zee River, 7 miles long, a tributary of Kingcome River.

ATLI INLET

formerly a logging camp on the north of Lyell Island, Queen Charlotte Islands, in Prince Rupert Provincial Electoral District, reached by G. T. R. steamers from Prince Rupert. Nearest telegraph office is at Thurston, distant 20 miles. Nearest post office is at Lockport.

ATLIN

a P.O. and mining town almost in the extreme northwest of the Province situated on the east side of Atlin Lake, about 30 miles south of the Yukon boundary, reached via Carcross, on White Pass Ry., and steamer on Taku Arm. Has offices of Prov. Government Agent, Assessor and Collector, Land Commissioner, Gold Commissioner, Water Recorder, Prov. Police Constable and Atlin Dist. Registrar of Supreme and County Courts. Atlin is the headquarters of the Atlin Lake Mining Division, which covers the whole northwest corner of the Province west of and from the watershed or height of land between the Taku and Stikine Rivers, with sub-recording office at Telegraph Creek. Has Government telegraph station, public school, general hospital and two churches. Atlin is becoming very popular as a tourist resort; over 1,000 visited in 1920 and are increasing every season. The wonderful scenery and climate are attractive. Local resources: Lode and placer mining for gold, silver, copper, etc.—gold and copper predominating.

BURRARD

a flag station on G. N. R., 5 miles southeast of Vancouver.

BURRARD

a steamer landing on the south side of Burrard Inlet, 4 miles east of Vancouver.

BURRARD INLET

a travelling post office on steamer of the Harbour Shipping Co., covering points between Vancouver and Indian River, on Burrard Inlet and North Arm.

Stalker J D postmaster

BURRVILLA

a landing point on the Fraser River, reached by local steamers from Vancouver and New Westminster, the post office, to Ladner and Steveston. It is noted for its oats, hay, wheat and potatoes. Black currants, red currants, strawberries, raspberries, gooseberries and loganberries flourish abundantly. In fact, it is the home of the loganberry. Dairying is carried on extensively and there are quite a few really good herds in this location. Land values average \$250 to \$400 per acre.

CAPILANO

a post office and scenic resort on Capilano River, which is 19 miles long, and flows southward into Burrard Inlet at the First Narrows. Capilano Canyon is one of the many beauty spots around Vancouver, and is visited by many thousands annually. The scenery is unsurpassed, the river flowing through a rocky canyon clothed with bracken, lichen and ferns, the coloring of which is reflected in the water. The upper section of the river is utilized by the City of Vancouver for its water supply.

Clowholm Lakes, two lakes lying 2
miles northeast of the Salmon Arm of
Sechelt Inlet.

Cloyah Bay, on the south side of
Denise Arm, 7 miles southeast of
Prince Rupert.

Club Creek, 5 miles long, runs into
south fork of Horsefly River.

CLUB LANDING

a steamer landing on the west arm
of Kootenay Lake, between Nelson
and Procter.

Cluculz Lake, 10 miles long, with
an arm running south 5 miles, 40
miles west of Fort George.

Clusko River, 25 miles long, runs
into Chilcotin River 48 miles north-
west of Alexis Creek post office.

Cluskus Lake, 3 miles long, in
Coast District, 7 miles east of Tzasha
Lake.

Clute Creek, 11 miles long, runs in-
to Kootenay District 7 miles north-
east of Kaslo.

Clyde Lake, 2 miles west of Sooke,
Vancouver Island.

C. N. R. JUNCTION

the junction of the C. N. R. and
C. P. R., in Yale Provincial Electora
District, west of Ashcroft, the post
office.

Coal Brook, 20 miles long, tribu-
tary of Pine River.

COAL CREEK

a post office and coal mining camp 5
miles east of Fernie, in Fernie Pro-
vincial Electoral District. Nearest
railway and telegraph is C. P. R. at
Fernie, which is the business centre.
Has Kootenay Telephone, Methodist
and R. C. Churches, and public
school. Population, 475. Local re-
sources: Coal mining.

Coal Creek, 14 miles long, runs into Elk River at Fernie, in East Kootenay.

Coal Creek, 9 miles long, on the southwest of Vancouver Island, 30 miles west of Victoria.

Coal Creek, 2 miles long, 7 miles south of Union Bay post office.

COAL HARBOUR

on the north side of the west arm of Quatsino Sound, Vancouver Island, owned by the West Vancouver Commercial Co. Is terminus of the Hardy Bay Trail. A roadhouse is maintained by Mr. Hole. Mr. Hole and P. A. Kennedy, resident agent of the Coal Harbour property, are the only permanent residents. Lumbering is being carried on by the Whalen Pulp and Paper Co., who have purchased the timber from the Coal Harbour Co., and as there are large deposits of coal on the property, mining is likely to be started in the near future. Quatsino is nearest post office.

Coal Harbour, on the north side of the west arm of Quatsino Sound, Vancouver Island.

Coal Harbour, on the south side of Burrard Inlet, at west end of Vancouver.

Coal Hills, 5 miles southwest of Kamloops.

Coal Island, 1 mile long, in the Gulf of Georgia, 2½ miles north of Sidney, Vancouver Island.

COALMONT

a post office and station on the K. V. & G. N. Rys., on the Tulameen River, about 170 miles from Vancouver, 11½ miles west of Princeton, and 4 from Tulameen, in Similkameen Provincial Electoral District.

Population, about 400. Has Dominion Government Long Distance Telephone office. Good fishing and hunting, and is in the gold-platinum district. Has public school and one church, used by any denomination; no clergyman. Local resources: Copper, gold, silver, steaming coal and lumbering. The coal mine ships about 500 tons per day.

Columbia River has its source in Upper Columbia Lake, flowing therefrom in a northwest direction and continuing so for 200 miles, when at Boat Encampment it makes a sharp turn and flows almost due south for another 150 miles. Here the river broadens out into the Upper and Lower Arrow Lakes, which stretch for a distance of 130 miles. The river continues south for another 50 miles and crosses into the State of Washington, U. S. A., at Waneta. Total length in British Columbia is about 600 miles.

COLVALLI

a station and farming settlement on the C. P. R. Crow's Nest line, 28 miles northeast of Cranbrook and 6 east of Wardner, the post office. Larner Geo farming

Colville Islet, a rock on the north side of the Outer Harbour, Victoria.

COLWOOD

a post office and station on E. & N. Ry., 8 miles from Victoria, in Esquimalt Provincial Electoral District, reached by rail and auto stage from the city. Has Anglican Church, public school, B. C. Telephone and electric light. Population, 350.

COURIER

a station on the C. P. R. Crow's Nest line, 4 miles east of Morrisey and 6 east of Elko, the post office, in Cranbrook Prov. Electoral District.

Courtenay

city on the E. & N. Ry., and Island Highway, on east coast of Vancouver Island, 68 miles north of Nanaimo and 140 north of Victoria, in Comox Provincial Electoral District, reached by E. & N. Ry., good auto roads, C. P. R. and Union S. S. Co's boats to Comox wharf from Vancouver. Courtenay is the northern terminus of the E. & N. Ry., and head of Comox Harbor, and is 3 miles distant from Comox by auto road. Has C. P. telegraph with local and long distance telephone connections with Vancouver, Victoria and all parts of the island; Anglican and Presbyterian churches. Business centre and distributing centre for extensive logging, lumbering, coal mining, farming and dairying industries, throughout the district. The Comox Logging & Railway Co. and the Canadian Collieries, Ltd., each employs a large number of men. Has electric light and electric and water power available. Rural mail service extending throughout the excellent dairying and mixed farming district in the vicinity. Courtenay is one of the points on the Island Highway of interest to autoists en route up the island to Campbell River and Strathcona Park. It has sand and gravel deposits, while principal resources are farming, coal-mining and logging. Population, 900.

Cowichan Head, on the east coast
 of Saanich Peninsula, Vancouver Is-
 land, 1 1/2 miles east of Cowichan
 wharf.

COWICHAN LAKE

a post office and fishing resort on
 Cowichan Lake, 20 miles northwest
 of Duncan, and 60 miles from Vic-
 toria, Vancouver Island, in Cowichan
 Provincial Electoral District, reached
 by E. & N. Ry., and auto road from
 Duncan. It is one of the finest lakes
 in the Province for fishing—river
 trout (including rainbow, cut-throat
 and steelhead), also lake and sea
 trout and steelhead salmon. Excel-
 lent big game hunting is available
 and a motor trip to the lake will
 pass through one of the finest stands
 of big timber to be seen in the west.

317-321
Columbia Ave.
Vancouver
B. C.

is the natural geographical centre of Eastern British Columbia, situated in Kootenay Provincial Electoral District, Kootenay Land Registry District (Nelson), and is county seat of East Kootenay County. It is a divisional point for the C.P.R. and railways from this point radiate in all directions. It is on the line between Montreal, Toronto, Winnipeg, Vancouver and Victoria. Trains leave Cranbrook and arrive in Spokane within six or seven hours. The other lines in Cranbrook are the Kootenay Central, going through the Windermere Valley and making connection with the C.P.R. at Golden, also a branch line to Kimberley.

The altitude of Cranbrook is 3,013 feet. There is a precipitation of moisture from eighteen to twenty inches of rainfall per annum, and a snow fall from one to three feet. In summer the thermometer rises as high as 80 or 90 degrees in the shade. In the winter the mercury falls below zero sometimes, but there is almost a total absence of wind.

Ploughing can usually be started about the first of April. Irrigation is not always necessary. There are numerous streams which assure sufficient water where needed.

The soil is adapted for mixed farming and is suitable both for roots and grains. The wheat grain grades No. 1 Northern. The potato crop is excellent both as to quantity and quality. Hardy varieties of apples such as Wealthy and Jon-

athan are grown successfully, while smaller fruits, such as raspberries, currants and strawberries, are particularly successful.

In addition to the fertile valleys and bench lands which are more particularly suited for mixed farming there are thousands of acres of range lands available on the side hills. The unlimited range and the excellent pastures combined with the not very rigorous winter make this country unexcelled as a range country for horses, cattle and sheep. The stock of the country is being greatly improved largely owing to the efforts of the Stock Breeder's Association. An Agricultural Fair is held in Cranbrook every year. The excellent showing of stock, and the large attendance give proof of the excellent agricultural results attained in the district.

There are excellent roads in the Cranbrook district and last year over 600 tourists' cars registered in passing through Cranbrook. Within 80 miles of Cranbrook is the Windermere district. This lake country in its beauty challenges the famous lake country in the north of England. There are a number of hot springs and an excellent swimming pool has been erected at Sinclair Springs. The Dominion Government is at present constructing a road between Banff and Windermere, which will make possible direct access from Cranbrook to Banff.

Cranbrook itself is a thriving town of over 3,000 inhabitants. It is a centre for the lumbering trade of

the district and also for the mining interests. There are various local industries and the city authorities give every encouragement to new industries by assisting in the way of providing sites and reduction of taxation. It is the judicial centre for the district, the Government Office being here and the judge residing in the city. There are five churches, an excellent hospital, a large up-to-date school, and a new high school opened last year in a separate build-

It is expected that the timber cut for this year will be considerably larger than last year, as the C.P.R. have recently bought large timber interests within forty miles of Cranbrook, and will be operating on a very large scale. Other companies are also arranging to cut not far from Cranbrook.

Mining

This district first became famous

PUBLIC BUILDINGS, CRANBROOK

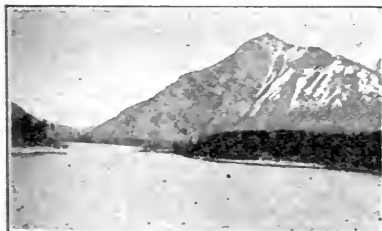

ing. There are two weekly papers, three banks, some excellently appointed stores, electric light company and telephone company, and a large Masonic Temple. There are several hotels, a large railway Y. M. C. A., and an excellent gymnasium and swimming pool.

Lumber Industry

In the past lumbering has been the most important industry in the district. There are about a dozen sawmills in the district and in addition to this there are a large number of men employed in making railway ties, mine props, poles, posts and piling. The principal market for the lumber is on the southern prairies.

as a mining district. In the old days at Fort Steele, a town about 12 miles from Cranbrook, royalty was paid on 19 million of dollars' worth of gold extracted from Wild Horse Creek, and it is considered that quite as much was extracted without paying royalty. Operations on this creek were conducted in a very primitive way, but during the last year several companies have been making arrangements to operate with the aid of the most modern machinery, and there is no doubt returns will justify the confidence in the possibilities of the creek.

There are numerous other gold workings in the district. Two of the most prominent of these being the Perry Creek Hydraulic Workings and Perry Creek Home Stake

Quartz Mining. Perry Creek District requires expenditure of a considerable amount of capital, and in the opinion of Government officials who have inspected the district, the prospects are that this district will rival the Rand in South Africa in its production.

Lead, zinc and silver mining are going on constantly at Kimberley, 18 miles from Cranbrook. The Consolidated Mining & Smelting Company has been operating for several years. The company has, however, during the past year, been devoting a large amount of its attention to development work, and they have built a tunnel in the south end of their property about 9,000 feet in length. Adjacent to the Sullivan Mine is the North Star Mine, which for years was a big producer of galena ore. Recently this has been taken over on lease and is regularly shipping. In the Wanderer district the Paradise Mine is a large shipper of very high grade lead ore, and there is every indication of a big body of ore. Other mines in the district include the famous Eugene, 20 miles from Cranbrook, famous as the greatest galena shipper of its day.

Prospects innumerable have been developed far enough to give an excellent showing of gold, copper, iron, silver, lead, nickel, galena, gypsum, asbestos, lime, zinc and other minerals.

The coal fields in the Fernie district are only about two hours by train from Cranbrook.

Water Power

Almost every stream in the district has a potential water power, chief among them being the Bull River, able to develop about 12,000 h.p., and the St. Mary's and Elk Rivers. None have been developed, but there are excellent prospects for the success of a power plant.

Sport

East Kootenay can veritably be called the sportman's paradise. The wooded hillsides give a peerless feeding ground for grouse, partridge and prairie chicken, and the small streams and lakes abound in trout, while ducks are numerous.

The Rod and Gun Club is an active and progressive organization which is doing its utmost to better the natural conditions of the district in introducing pheasants and other game birds, as well as keeping a hatchery to replenish the lakes and streams with salmon and trout. One lake in the district, Premier Lake, is probably the best in Canada, or America for that matter, for landlocked salmon, as this lake is actually landlocked and salmon placed in it as fry four years ago now weigh from 15 to 22 pounds. In addition to being such an ideal resort for fishermen this lake is one of the beauty spots of the West, and is easily reached by good motor road from Cranbrook. Large game is found higher up in the hills, while on the bald peaks of the Rockies very fine specimens of mountain sheep and goat lure the sportsman

from the safer playgrounds of the less venturesome.

Cranbrook is fortunate in having good athletic clubs of various sorts, lawn tennis and baseball, golf, skating, curling and hockey. There is an excellent nine-hole golf course within a mile of the town and another golf course at Invermere.

The skating and curling rinks are a great credit to the town.

Cruice Rock, in Malacca Passage, 16 miles south of Prince Rupert.
 Cruickshank River, 15 miles long.

Cumberland

the home of the famous Comox steam coal. The largest centre of population on Vancouver Island, north of Nanaimo, is the chief centre of production for the Canadian Collieries (Dunsmuir) Ltd., the largest coal operators on Vancouver Island, the Cumberland mines having an output of 55,000 tons per month. The city is situated in Comox Provincial Electoral District, in the foothills of the Beauford Mountains on Comox Lake, and connects with Union Bay, which is 12 miles southeast, the shipping point for Canadian Collieries (Dunsmuir) Ltd., and also with the E. & N. Ry., at Royston, four miles east, by Canadian Collieries (Dunsmuir) Ltd., Ry. Comox Lake is one of the beauty spots of the Island, and affords excellent fishing and boating, and is the supply reservoir for the Canadian Collieries (Dunsmuir) Ltd., hydro-electric plant. The scenery on this lake is superb, and all tourists should arrange to spend a half day viewing the varied scenery of this

runs into southeast of Comox Lake, Vancouver Island.

Crystal Creek, 5 miles long, a tributary of south fork of Spillimacheen River.

Cub Island, in Masset Inlet, Queen Charlotte Islands.

CUICHEON COVE

on Salt Spring Island, near Ganges, on the Gulf Island Route, from Vancouver and Victoria.

Cullen Harbour, on the south of Broughton Island.

Cullins Creek, 6 miles long, a tributary of Beaver Creek, West Kootenay.

Culloden Point, in Jervis Inlet, opposite north of Nelson Island.

Cultus Creek, 20 miles long, runs into Kootenay Lake 7 miles north of Kootenay Landing.

CULTUS LAKE

a timber berth on Cultus Lake which is 2½ miles long, 7 miles from Sardis and 9 south of Chilliwack, in Chilliwack Provincial Electoral District, reached by good auto road. Nearest telegraph office is at Vedder Crossing, 2¾ miles. Many campers here in summer months. Local resources: Timber and fish hatchery. Address mail Lindell post office, via Sardis.

New Westminster Mills Co
 North Pacific Lumber Co timber
 Stanton W R watchman

CULTUS LAKE RANCH

in Deadman Creek Valley, 20 miles from Savona on the C. P. R., in Kamloops Provincial Electoral District. There are few white families in the valley, there being the Deadman Indian Reserve midway between Savona and Cultus Lake ranch. Address mail via Savona post office.

Walkes C B rancher

Cultus Sound, on the west of Hunter Island.

Endako River, 30 miles long, flows from Burns Lake into Fraser Lake, Omineca district.

Enderby

is an incorporated city on the S. & O. branch of the C. P. R., 23 miles from Sicamous Junction, 28 miles from Okanagan Landing, 15 miles by good automobile road from main C. P. R. line at Salmon Arm. Altitude 1,165 feet. Incorporated area 655 acres, estimated population within corporate limits 1,000, beyond limits, in surrounding district (estimated) 1,200, or, in all, about 2,200. Town is charmingly situated among low, green hills, at the head of navigation on the beautiful Shuswap River, at a spot where several tributary valleys converge, and which seems to be marked out by nature itself for a distributing, industrial and social centre. The principal industry is lumbering. The sawmills have an annual capacity of 50 million feet, daily loading capacity of 300,000 feet. There is a good hotel, excellent stores carrying all the usual line of merchandise, two banks, brickyard, livery stable, three garages, printing and newspaper office, cottage hospital of eleven beds having a government grant of \$1 per day per patient, opera house, modern school house (cost \$60,000), with graded and high school departments, and agricultural instructors, four churches, Masonic and other lodges, two daily trains, electric light, local and long distance telephone, municipal water supply. Has C. P. R. Telegraph office. Coal of superior quality has been found in the vicinity, and is believed by experts to exist in considerable quantity, important indications of oil are also found, and active prospecting of same is now being carried on. Mabel Lake, a large body of water, lies about 20 miles east of the town. This lake affords extraordinarily good fishing, and its beaches form a favorite playground for the people of Enderby, many persons going there by motor car for week-end trips and camping there for longer periods during the summer months. The lake discharges its enormous volume of water through a narrow channel, having a fall of about 70 feet. The

stream at this point is known as "The Skookumchuck," and is believed to be capable of developing many thousands of horse power if harnessed up for hydro-electric purposes. District excellent for mixed farming, ample rainfall, no irrigation needed. Enderby apples won Bank-sian Silver Medal at Royal Horticultural Show, London, England, year 1910. Farm land ranges in price from 30 to \$200 per acre.

Mayor—Geo. H. Smedley.

FRASER MILLS MUNICIPALITY

Reeve — Dr. R. H. Scott, Fraser Mills.

Fraser Reach, at the northeast of Princess Royal Island.

Fraser River, 750 miles long, rises in the Rocky Mountains in the vicinity of Yellowhead Pass, and flows in a northwest direction for about 250 miles; it then turns and flows due south down the centre of the Province for over 400 miles, when it makes a turn to the west and enters the Straits of Georgia, 12 miles north of the U. S. A. boundary. Total length about 750 miles. Its principal tributaries are: the Grand Fork at 50th mile, North Fork at 210th mile, Willow River, Nechaco River, Blackwater River, Quesnel River, Chilcotin River, Thompson River, and Harrison River.

FRASER RIVER JUNCTION

at junction of C. N. R. and G. N. R., ½ mile east of New Westminster, in Dewdney Provincial Electoral District. See names under New Westminster.

FRASERS

a Dominion Government Long Distance Telephone office, 32 miles from Kamloops, and 2 from Stump Lake, the post office.

Fraser Jas rancher and tel agt

FRASERTOWN

a farming settlement on Fraser Lake, distant 1-8 mile from Fraser Lake village. See names under Fraser Lake.

Frazer Island, in Becher Bay on south of Vancouver Island.

FREDERICK

a flag station on the C. N. Ry., on the Frederick ranch, 6 miles west of Tranquille, the post office, and 14 west of Kamloops, in Kamloops Provincial Electoral District.

Frederick C B farming

Frederick Arm, an inlet in the Coast district, opposite the north end of Valdes Island, 150 miles northwest of Vancouver.

Frederick Island, in the Queen Charlotte Group, lying off the northwest of Graham Island.

Frederick Point, on the east of Read Island.

Frederick Sound, an offshot from the east end of Seymour Inlet.

Freeze Creek, 4 miles long, a tributary of Fish River.

French Bar Creek, 40 miles long runs into the Fraser River, 50 miles north of Lillooet.

FRENCH CREEK

of Parksville, in Alberni Provincial Electoral District, reached by stage from Parksville, the nearest post office, railway and telegraph (C. P. R.) point. Population, 150. Anglican church and public school. Improved lands average \$200 per acre, unimproved, \$25 per acre.

GILFORD ISLAND

22 miles long and 12 broad, at south end of Queen Charlotte Sound, 16 miles northeast of Alert Bay, in Comox Provincial Electoral District. The island is heavily timbered and its lakes abound in trout. There are several logging camps and it is the winter quarters of a large tribe of Indians. Union S.S. Co.'s boats call on signal. For names, see Irvine Point.

Gil Island, 18 miles long, at entrance to Douglas Channel, 5 miles northwest of Princess Island.

GILLEY

a station on the B.C.E. Ry., 1 mile west of New Westminster, the post office and business centre, which see.

Gilliard Island, in Cadero Channel, ½ mile west of Stuart Island.

GILLIES BAY

a post office and farming district in centre of Texada Island, in Comox Provincial Electoral District, reached by Union S. S. Co.'s boats to Van Anda, about 10 miles distant, which is the nearest telegraph office. The school, post office and settlement are situated about 3½ miles from salt water. Population about 100.

GRANBY BAY

See directory listings under Anyox.

GRANBY JUNCTION

a station on C.P.R. and G.N.R. for freight only, one mile from Grand Forks. Here is located the Granby smelter, producing blister copper and large quantities of gold and silver. See names under Grand Forks.

Grand Forks

is a charmingly situated city, built at the junction of the main Kettle River with the North Fork, in a wide valley surrounded by beautiful mountains. Grand Forks has many substantial business blocks, embracing all lines of business, splendid educational facilities, comprising high and public schools with a staff of 13 teachers, fine public buildings, churches of four denomi-

nations, a good water supply, electric light and B. C. Telephone, Great Northern and C. P. Telegraph. It is in Yale Land Registry District (Kamloops). Office of Provincial Government Agent, Provincial Police Constable, Gold Commissioner and Mining Recorder Grand Forks Mining Division, District Registrar Supreme and County Courts, also Deputy Collector Inland Revenue

(Canada). Collector of Customs, Provincial Mining Engineer, Provincial Horticulturist, and Dominion Veterinary Officer. Situated here is Rock Candy Fluorspar Mine, the largest deposit of this kind on the continent, owned and operated by the Consolidated Mining and Smelting Co. of Trail. The other industries includes box factory, planing mill, iron works, creamery, Canadian Pacific, Great Northern, Kettle Valley and Spokane & British Columbia railways. This spells prosperity, not only for Grand Forks, but for the entire surrounding district. Another asset that has been bestowed on the Kettle Valley with a lavish hand is almost unlimited hydro-electric power, only part of which is now utilized. Many other power sites can be developed on the many streams as needed, and this, with the splendid transportation and abundant raw material, will undoubtedly attract manufacturers. Mother Nature has planted over the district a splendid growth of very valuable timber and immense quantities of pulp timber awaits the establishment of a pulp mill. All kinds of delicious fruits, potatoes and all other vegetables, alfalfa, timothy, all kinds of grain, are grown successfully and profitably. A system of irrigation for the district has been approved and construction will commence in the near future. The mild winters are conducive to the raising of stock, for the mild winters mean but little feeding during the winter months and no stabling is necessary for range stock. The climatic conditions in the Kettle Valley are excellent—no deep snow, no blizzards, and no extreme cold in winter. The middle part of the summer is warm and dry, with cool nights. Being at an altitude of 1,715 feet above sea level and between the Rockies and the Coast Range, it does not get the excessive rains of the coast districts, nor the extreme lack of moisture of the dry belts, and for an all-year climate few places are its equal and fewer still its superior. A splendid system of macadamized roads has been laid out in the valley, being on the main coast to coast automobile highway. Grand Forks is served by the C.P.R. Nelson-Vancouver line, and the Great Northern Railway. It has Anglican, Presbyterian, Methodist and Roman Catholic churches. Population 2,000.

D. C. MANLY,
Secretary Board of Trade.

a long navigable channel which
stretches along the northeast coast
of Vancouver Island for a distance
of 60 miles, separating it from Cra-
croft Island, Thurlow Island and the
mainland.

JONES CREEK

14 miles long, flows from Jones Lake
into Williams Lake, Cariboo district.

JONES ISLAND

in the Gulf of Georgia, 3 miles east
of Sidney, Vancouver Island.

JONES LAKE

3 miles long, 5 miles southeast of
150-Mile House, Cariboo district.

JONES LAKE

2 miles long, in the Yale district, 8
miles south of Hunterville.

JORDAN MEADOW

at the headwaters of the Jordan Ri-
ver, Vancouver Island.

JORDAN RIVER

See River Jordan.

JORDAN RIVER

20 miles long, rises in Malahat dis-
trict and flows into the southwest
coast of Vancouver Island, 38 miles
west of Victoria.

JORDAN RIVER

19 miles long, a tributary on the
right bank of Columbia River, 1 mile
north of Revelstoke.

JORDAN RIVER

10 miles long, tributary on right
bank of Columbia River, 27 miles
southwest of Boat Encampment.

JOSEPH CREEK

23 miles long, runs into the North
Thompson River, 52 miles north of
Kamloops.

JOSEPHINE RANCH

a Dominion Government Long Dis-
tance Telephone office, 23 miles from
Kamloops, the post office,
Sharman A ranching and tel agt

JOSEPHS CREEK

15 miles long, runs into St. Marys
Creek, north of Cranbrook.

JOSH CREEK

6 miles long, tributary of McRae
Creek, Christina Lake.

JOYCE

a sub-post office and suburban resi-
dential district between Vancouver

and New Westminster. See names
under Vancouver.
English R postmaster

JOYCE POINT

on the west of Redonda Island.

JUAN DE PEREZ SOUND

on the east of Moresby Island, Queen
Charlottes.

JUBILEE

a post office and station on B. C. E.
Ry., 8 miles from Vancouver, and 6
from New Westminster, in South
Vancouver Provincial Electoral Dis-
trict. Population 1,600. Has Meth-
odist and Presbyterian churches. See

Kamloops

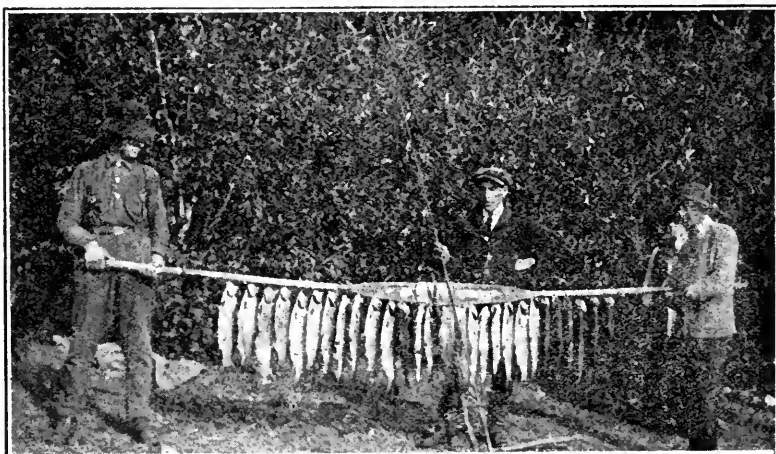

situated at the confluence of the North and South Thompson Rivers is a most progressive city of over 5,000 population. The first settlement at this point took place in 1812, when the Hudson's Bay Co. established a trading post near the present site of the city. Following fur, trading stock raising became the leading industry of the district, and as long as fifty years ago Kamloops was a well known centre. In later years began the practice of mixed farming and fruit growing and the growth of the city became more rapid.

Its well-kept streets with bordering boulevards planted with beautiful shade trees and a well-groomed appearance of the fronts of the residences, together with the prosperous appearance of the business section, makes the Kamloops of today the most attractive town in the whole B. C. interior. The transportation facilities afforded by two transcontinental railways and the branches centering on Kamloops, by a local system of navigable waterways and by motor highways radiating from the city, together with its strategical geographical position, combine to make the city the logical trading and distributing centre of the in-

terior of British Columbia. The city has five chartered banks and is the commercial and administrative centre of the most fully developed portion of the interior. Here are the offices of the Provincial Government Agent, Assessor and Collector, Gold Commissioner, Resident Mining Engineer, Water Branch Engineer, District Forester, District Agriculturist, Provincial Department Inspector of the Kamloops Land Recording District, District Engineer Public Works Department, Dominion Hydrometric Survey Engineer, District Registrar of the Supreme and County Court, Divisional Mining Recorder, Indian Agent, Deputy Collector of Customs, Dominion Lands and Crown Timber Agency, and the Federal Forestry Department.

At the present time the City of Kamloops is operating municipally-owned hydro-electric and steam plants with a capacity of 4,000 horsepower, and is furnishing for local industries and irrigation purposes approximately 1,500 horsepower. Plans have been completed for the development of a further 30,000 horsepower at Adams River.

turing lines are procurable within a radius permitting economical assembly—fir, pine, spruce, cedar, birch and cottonwood for woodworking industries; wheat and coarse grains for milling; clay, shales, gypsum and limestone for brick, plaster and lime manufacturers; coal, lime, pyrites, magnesite, cinnabar, Epsom salts, baryta and diatomaceous earths for chemical works; animal products for cold storage; hides, wool and pelts for tannery, woolen mill or fur dressing establishment; fruit and vegetables for cannerymen. The natural resources of the district are not limited to those which would supply raw material for local manufacturing but include almost everything of economic value obtainable in the province. The minerals of economic interest known to exist in the district are astonishing in variety. Iron, coal and copper can be produced commercially from properties already in operation. Silver, gold, zinc, lead, cinnabar and many non-metallic minerals are known to exist in payable quantities. Development is only needed to make Kamloops one of the mining centres of the continent. The timber limits of the district tributary to Kamloops would supply many mills for years and the spruce forests of the North Thompson contain enormous quantities of pulp wood. Stock raising would provide for an unending source of supply for a cold storage plant, which would handle dairy and fruit products as well as meats. Excellent wheat is produced in the district. Mixed farming and dairying are rapidly increasing in importance as local industries. Fruit and vegetable production is developing rapidly, and a canning plant of considerable capacity is in operation. The district is particularly suited to the production of garden and farming seeds, and considerable progress has been made in this direction.

Every year sees a large increase in the irrigated acreage put under cultivation on the fertile lands close to the city, and there are now thousands of acres producing vegetables

and fruits. Chief among the vegetable production are potatoes, which run into the hundreds of carloads; tomatoes, which are grown in fields of from five to fifty acres, and table vegetables. The greatest success in fruit culture is attained in the growing of apples, and there are some particularly fine orchards in the district, the largest of which is the Brocklehurst orchard of the B. C. Fruitlands, which has over 15,000 trees. Alfalfa is grown very successfully on these irrigated lands and the yield from three cuttings frequently exceeds six tons to the acre in the season.

Kamloops has long been noted for its climate and is ever becoming more famous as a health resort, especially for those afflicted with chest troubles. It is also becoming the mecca for tourists who are delighted with the scenic drives through the mountain valleys, and the city itself has developed a splendid bathing facility, the Thompson River beach, with its modern pavilion in Riverside Park being an ever popular resort throughout the summer months. The district has a great attraction for anglers, the trout fishing in the lakes within easy motoring distance being unsurpassed on the continent. The trout are the Kamloops steelhead, weighing from one to ten pounds and the day's limit may easily be taken with either fly or troll. Good boats, camping facilities and living accommodation are available at all lakes.

KAMLOOPS LAKE

15 miles long, is formed by a widen-
ing of the Thompson River, 7 miles
west of Kamloops and stretches 15
miles west to Savona.

KANAKA

a flag station on C. P. R. 9 miles east
of Lytton, and 17 east of North
Bend, in Yale Provincial Electoral
District. No agent. Nearest tele-
graph office, the C. P. R. at Lytton.
Anglican and R. C. missions here.
Population, 50 Indians

KANAKA CREEK

8 miles long, runs into Fraser River,
1 mile east of Port Haney.

KANAKA MOUNTAIN

4 miles northeast of Keefers.

KANANASKIS PASS

on the Alberta boundary, 35 miles
northeast of Windermere.

KANGAROO CREEK

10 miles long, runs into Quesnel
River, 2 miles east of Quesnel Forks.

KANGAROO LAKE

3 miles long, 7 miles northwest of
Quesnel Forks, Cariboo District.

KARMUTSEN LAKE

see Nimpkish Lake.

KARMUTSEN MOUNTAIN

5,500 feet high, 20 miles southwest
of Alert Bay.

KARMUTSEN RIVER

see Kla-anch River.

KASLO

a P. O. and town on Kootenay Lake,
at mouth of Kaslo Creek, in Kaslo
Prov. Elec. Dist. and Kootenay Land
Reg. Dist. (Nelson), reached by C.P.
R. lake steamers on Nelson-Lardeau
line, and on C.P.R. Nakusp-Kaslo
rail branch Kaslo is noted for its
silver-lead and zinc properties. Has
office of Prov. Govt. Agent, Asses-
sor and Collector Slocan District,
Land Commissioner Slocan Record-
ing District, Prov. Police Constable,
office of the Kaslo District Regis-
trar of the Supreme and County
Courts, Gold Commissioner Ains-
worth Mining Division, Sub-Collect-
or of Customs outpost of Nelson.
Has telegraph and B. C. telephone.
Has Anglican, Methodist, Presbyte-
rian and R. C. churches, high and
public schools. Population, 1,000.
Local resources: Fruit growing,
lumbering and mining, also tourist
advantages by way of hunting, fish-
ing and scenic.

8 miles long, runs into West Fork of Kettle River.

KELLY CREEK

6 miles long, a tributary of Beaver Creek, West Kootenay.

KELLY CREEK

5 miles long, runs into the Fraser River, 24 miles north of Lillooet.

KELLY LAKE

5 miles long, tributary of Tulameen River.

KELLY LAKE

2 miles long, in Lillooet district, 12 miles north of Pavilion. See names under Lough Raymond.

Kelowna

on east side of Okanagan Lake, in South Okanagan Provincial Electoral District, 80 miles south of Sicamous, on C.P.R. main line. Has daily C.P.R. steamers from Okanagan Landing, 30 miles, and Pentiction. Has Government long distance telephone to all parts of Okanagan. Has four churches, three schools, general hospital, exhibition building, race track, municipal park with mile of lake frontage. Has C. P. telegraph. Office of Asst. Horticulturist Prov. Agricultural Department, Prov. Police Constable, Sub-Collector of Customs, outpost of Pentiction. Clubs: Golf Club, Kelowna aquatic, polo and organized athletic associations. Population, 3,000. Local resources: Fruit and vegetable growing, packing, shipping, dairying, canneries and tobacco growing.

Land Values

Nature of soil—All varieties, from sandy to clay loam.

Price of Farm Lands—Good lands under irrigation vary in price according to location and quality, from \$100 to \$300 per acre.

Fruit Lands—Ready to plant, \$150 to \$200 per acre.

Range Lands—From \$5.00 to \$20.00 per acre.

Young Orchards—From 2 to 5 year old, without buildings, \$200 to \$600 per acre.

Bearing Orchards—\$400 to \$1,000 per acre.

Irrigation

Method of Irrigation—Water is carried from main canals in ditches, flumes or pipes, and conducted along rows of trees or vegetables in ploughed furrows. Hay and alfalfa are irrigated by flooding.

Irrigation Season—Extends from May to September. Fruit trees according to age, require two to four waterings per summer. Vegetables governed by the season, from three

to four times. Hay and alfalfa in May, and again after each crop.

Products

Fruit, the chief product, and vegetables, including tomatoes and cñons, have a present annual production of 1,800 cars. Hay and alfalfa find a ready local market, the demand exceeding the supply.

Dairy Products—Principally butter, are exported in considerable quantities, in addition to supplying the local demand.

Gross returns from all crops at present approximate \$1,500,000 per annum.

Market

Besides the extensive market of the prairie provinces, an increasing amount of fruit is annually being shipped through the port of Vancouver to Australia, New Zealand and foreign countries. Local evaporators take care of the small apple culls. Vegetables find their chief market on the prairies. A considerable quantity is also purchased by the local canneries.

Transportation

This is furnished by the Canadian Pacific Ry., via Sicamous, on the main line, and at Penticton with the Kettle Valley Ry. Cars are loaded at the packing houses and transferred by barge to the railway at either end of the lake and thence to their destination. Fast freight boats are provided for perishable fruits, and express shipments are carried by the passenger steamer.

Opportunities

Under recent abnormal conditions it is impracticable to detail the opportunities which exist here for favorable investment or employment, but no hesitation is felt in recommending investment or settlement in the town or district.

Kelowna

Has a population in town and district estimated at 6,000.

Is about 20 hours from Vancouver and 96 hours from Montreal.

Has its own water, light, power and sewerage system.

Has many miles of interesting drives.

Has a telephone system with rural and long distance connections.

Has a number of shipping organizations, facilitating sale of fruit and produce.

Has three banks, mercantile houses of all classes, newspaper, five churches, three schools, and all the prominent fraternal organizations.

Rates—Water for domestic purposes, \$1.20 per month per 4,000 gallons; light 12 cents per K.W. hour; power, 9 cents per K.W. hour; taxes, based on land only, 27 mills. Rents range from \$10 to \$35 per month. Residential lots sell at prices ranging from \$50 to \$500.

Reasons Why Kelowna is a Desirable Place to Live In

Spring opens early in March; good weather prevails until October, the cold weather usually beginning late in December. Winters for the most part are clear and bright and not severe.

Healthy climate, long dry summers, short, bracing winters, good motor roads; attractive scenery, splendid bathing, boating, good fishing, good hunting, excellent schools, reasonable rents and rates; good class of people.

N. D. McTavish,
Secretary Kelowna Board of Trade.

Ladysmith

The City of Ladysmith, incorporated in 1904, is situated on Oyster Harbor, which is considered second to none in the Province, affording as it does, safe anchorage to boats of the deepest draught.

On the main line of the Esquimalt & Nanaimo Railway, and on the Island Highway, 14 miles south of Nanaimo, and 60 north of Victoria, Ladysmith has advantages which facilitate the shipment of the celebrated product of the coal mines of the Canadian Collieries (Dunsmuir) Limited, who are operating the famous Wellington coal in the area of Extension.

At Ladysmith this company have built extensive wharves, specially

constructed so as to allow of the coaling of the various classes of vessels at all tides.

The Granby Consolidated Company are now shipping at a point about a mile south of Ladysmith and have erected a wharf with the latest loading facilities, included in which is a conveyor belt by which coal is carried from the bunkers direct to the vessel; the output of the mines of this company is steadily increasing.

It is at Ladysmith where Mainland-Island contact is made by the ferry and barges of the C. P. R., the greater part of the island freight being handled from this point and distributed to the various parts of the Island.

Extensive logging operations are carried on in the vicinity of Ladysmith by the Victoria Lumber and Manufacturing Company, the Timberlands Development and other companies.

The new Ladysmith Lumber Company's Shingle Mill is on Ladysmith's waterfront adjacent to the smelter plant of the Tye Copper Company.

Hotel accommodation is amply provided for and during the holiday season attracts a large number of visitors.

As a seaside resort, Ladysmith is fast developing popular interest.

The name Ladysmith is inextricably associated with the South African war, during which time the city came into existence, and to the transient, the nomenclature at once bespeaks the connection ("Warren," "Symonds," "Baden-Powell," "Roberts" streets and others named after famous generals of the South African war.)

The town was originally founded by the Honorable James Dunsmuir, who was at that time operating the Extension Mines, with the object in view of providing suitable homes for his employees and at the same time providing a port for the shipment of his coal. Commodious homes were built by Mr. Dunsmuir and disposed of at cost on very attractive terms which early established an interest in the development of the city. Ladysmith now possesses a population of 3,000 and is provided with a good water system; municipally-owned electric and sewerage plants; a splendid range of school buildings, including graded public, high and technical. Has a modern three-story hospital with competent staff of nurses; convent and orphanage; churches of all denominations and has County Court, Mining, Births, Deaths and Marriage Recording Office; Customs and Inland Revenue, Telegraph and Telephone conveniences and is amply provided with banks.

For further particulars write the Secretary of the Board of Trade.

Mayor—W. W. Walkem.

Aldermen—J. A. Knight, Theo. Bryant, Geo. E. Reid, S. Lauderbach, E. D. Comley, Hy. Wright and David Davidson.

City Clerk—C. G. Callin.

Chief of Police—C. G. Allen.

Postmaster—Theo. Bryant.

Police Magistrate—John Stewart.

LAKEVIEW

a station on the B. C. E. Ry., Central
Park line, ¼ mile east of Cedar Cot-
tage. See listings under Vancouver

Lake Wilgiapsi Island, 3½ miles
west of Prince Rupert.

LAKE WINDERMERE

a station on the C. P. R., 74 miles
south of Golden. See listings under
Windermere, the post office.

Laki Creek, 9 miles long, runs
into Kootenay Lake, 5 miles south-
east of Kaslo.

Laluwissin Creek, 10 miles long,
runs into the Fraser River, 16 miles
north of Lytton.

Lama Pass, between north of Hun-
ter Island and Denny Island.

Lamb Creek, 7 miles long, runs
into Moyie Lake, East Kootenay Dis-
trict.

Lambert Channel, between Den-
man Island and Hornby Island, Sts.
of Georgia.

Lancelot Arm, a branch of Malas-
pina Inlet, running northeast for 4
miles.

Landers Creek, 9 miles long, trib-
utary of the Coquihalla River.

Lanes Creek, 5 miles long, runs
into North Thompson River, 12 miles
north of Kamloops.

LANG BAY

a post office and settlement 60 miles
from Vancouver, formerly called
Wolfsohn Bay, in Comox Provincial
Electoral District, reached by Union
S. S. Co.'s steamers. Has telegraph
office. A summer resort with splen-
did bathing beach, good fishing and
hunting. Powell River is the busi-
ness centre. Resources: Logging and
ranching. Population 50.

Malacca Passage, between Porcher
Island and mouth of the Skeena
River.

MALAHAT

a flag station on the E. & N. Ry.,
with C. P. R. Telegraph office, in
Esquimalt Provincial Electoral Dis-
trict. On the east side of the sum-
mit of Malahat Mountain is the fam-
ous Malahat Drive, overlooking
Saanch Inlet and Peninsula, the Gulf
Islands, and across to the B. C.
mainland. Here also is the famous
Malahat Beach. Distant 20 miles
from Victoria, by the Island High-
way. No local residents. Nearest
post office is Goldstream.

MALAKWA

a post office and station on the C.
P. R. main line, between Sicamous
and Revelstoke, in Revelstoke Pro-
vincial Electoral District. Has Do-
minion Government Long Distance
and local telephone offices, Presby-
terian church and public school.
Nearest bank is at Salmon Arm, 31
miles distant. Population 200. Lo-
cal resources: Mixed farming. Has
shingle mill and fence post factories.
Good opportunity for poultry raising
in this district.

Meadow Creek, 16 miles long, a tributary of Mamete Creek.

Meadow Creek, 10 miles long, tributary of Goat River, in southeast of West Kootenay district.

Meadow Creek, 4 miles long, runs into Beaver Creek, 3 miles west of Erie.

Meadow Creek, 12 miles long, tributary of the Lardeau River.

Meadow Creek, 4 miles long, runs into San Juan River, Vancouver Island, near its source.

MEADOW VALLEY

a mixed farming settlement, 1 mile north of Mineola. See listings under Mineola.

MEADOWS

a siding on the White Pass & Yukon route, 2 miles from Glacier Creek, the post office, 6 miles from White Pass and 26 from Skagway. No agent or local residents.

MEADOWS

a flag station on the G. N. Ry., F. & N. Division, 15 miles south of Erie, the post office, and 5 from Salmo, in Trail Provincial Electoral District. Has Dominion Government long distance telephone. Population 20. Local resources: Stock, dairy and fruit farming, lumbering, milling and very substantial mining prospects, though the mining has not been developed, as the district should be, owing to lack of capital to work out the low grade ore propositions that seem to prevail in this district. Timber generally is good and easy to get to transportation.

Barkley Samuel ranching
Hanson C W ranching
Klovance L sec foreman gardening
Linsley Bros pole and lumber mfrs

Memekay River, runs into Salmon River, 14 miles south of Port Kusam, Vancouver Island.
Menhinick Creek, 7 miles long, a tributary of Fish River.
Mensdorff Point, on the north side of Seymour Inlet.

MENZIES BAY

a discarded camp of the Booth Logging Co., 8 miles north of Campbell River. Reached by Union S. S. Co.'s boat from Vancouver. See Porpoise Bay.

MENZIE'S MILL

a Dominion Government Long Distance telephone office, 10 miles from Merritt, the business centre and post office.
Menzie Jas lumber mfr and tel agent

Mereworth Sound, 18 miles long, a branch of Belize Inlet, running northwards.

MERIDIAN

a station on the B. C. E. Ry., 24.7 miles east of Vancouver, 8 miles from Cloverdale and 2½ from Kensington Prairie, in Delta Provincial Electoral District. See names under Surrey Centre, the post office.

Merritt

a post office and town of 1,800 population, situated in the heart of the Nicola Valley at the confluence of the Nicola and Coldwater Rivers, on the line of the K. V. Ry., 42 miles south of Spence's Bridge, in Yale Prov. Electoral District, with daily trains, east, west and south, except Sunday. It is served by the C. P. R. Telegraph, Dominion Express and Dominion Government local and long distance telephone services. It has the Provincial Government Agent's office and Courthouse, offices of the District Registrar of the County Court of Yale, District Mining Recorder's office, Provincial Police office and Assistant District Engineer's office. The Anglican, Methodist, Presbyterian, Roman Catholic and Plymouth Brethren denominations maintain churches, and there are good public schools and high school. The industries comprise two shipping coal mines and two saw and planing mills, the Nicola Pine Mills, Ltd., being the largest lumbering industry in the interior, with a capacity of 50,000,000 feet of lumber annually, the timber, of which there are large limits in the neighborhood, being the famous soft western pine. There are vast undeveloped coal measures and copper, silver and other metal mining resources are in process of development. The Nicola Valley is the largest shipper of beef cattle and horses of any district in British Columbia, while mixed farming, dairying, sheep and hog raising are important industries. Merritt is the centre of a territory containing many natural resources and offers a wide field for investment. A magnificent

climate, good water, unrivalled scenery and splendid hunting and fishing. The monthly payroll from mines, sawmills and railways is in the neighborhood of \$100,000. The municipality owns its own water and electric light systems, and the rate of taxation is low.

Vancouver

operating a double daily train service, and with the latter by the Canadian Pacific Railway Company's SS Princess Patricia, the fastest passenger and freight steamer on the Pacific Coast, which during the summer months operates a double daily run between the two cities.

In regard to population Nanaimo ranks fourth among the cities of British Columbia. Founded in the year 1854 by settlers direct from England, and incorporated in 1875, it is one of the oldest cities in the province, the census of 1920 giving it a population of 9,000, the estimated population of the city and immediate vicinity at the present writing being placed at upwards of 10,000, the increase keeping pace with the slow but steady and permanent development of the district. Situated as it is in the geographical centre of Vancouver Island and the nearest point on the Island to Vancouver the metropolis of the province, Nanaimo is by nature the distributing centre for the whole of Vancouver Island, being connected with Victoria, Duncan, Chemainus and Ladysmith to the south, Alberni and Port Alberni to the west, and Union Bay, Courtenay, Comox and Cumberland to the north by the E. & N. Railway, and also having connections both to the north and south by steamers which make connections at all principal points on the Gulf Islands. In the realm of trade and commerce, Nanaimo has big advantages over any port on the east coast of the Island, and is the real key to the Island trade, being the most direct port of entry from the terminus of the C. P. R. at Vancouver, and with the unfolding of the mineral resources of the interior and the extension of the railway system to the northern end of the Island, the city of Nanaimo will undoubtedly be established as the permanent distributing centre for the whole Island and command a very large volume of trade in all merchantable commodities.

Nanaimo has within its borders industries not found in cities many times greater in population, some of minor importance, but others capable of much development and giving promise of attaining large proportions. It is in the development of these minor industries that the city is expecting to reach beyond the term so often applied to it of "The Coal City"—not that the extensive and valuable coal mines in the vicinity will not add to Nanaimo's wealth and importance—but it is realized by the citizens that Nanaimo is much more than a coal mining centre, the greatest in the province. It is the outlet for the immense rich iron ore deposits of the Island and the logical site of iron ore smelters and steel manufacturing plants. The Nanaimo coal area is the largest in the province and is estimated at 350 square miles, the city being the centre of operations, which during the year 1921 caused an output of over a million tons of the best quality of coal mined on the Pacific Coast, employing upwards of 3,000 hands and furnishing a monthly payroll of over \$300,000. Such a large amount of

cash being put in circulation each month must of necessity bring about prosperous conditions, and this is why Nanaimo subscribed half a million dollars to Canada's Victory Loan, that 65 per cent of the working class of the city own their own homes, and the banks of the city show saving deposits aggregating an amount that excites the wonder of the visitor to the city.

While the output of the district mines for the past year totalled upwards of a million tons, this amount will be exceeded during the current twelve months, for not only are all the old mines working to capacity, but new seams are being rapidly opened up, the Granby Consolidated Company being engaged at the present time in developing a virgin field at Cassidy's at an initial expenditure of a million dollars, with an expected output within six months of a thousand tons daily, the Western Fuel Company developing a new mine within a mile of the city limits and the Canadian Collieries shipping coal from its new property at South Wellington, but three miles from the city.

While one of the oldest cities in the province, it is only in recent years that Nanaimo awoke from its lethargy, since which time it has paved its business streets, constructed fifteen miles of cement sidewalks, expended upwards of \$300,000 on a municipal owned water system, which during the past year produced a revenue of \$40,000, and installed a sewerage system to within 25 per cent of completion. During the past three years the city has also installed modern fire fighting equipment in the form of motor trucks, chemicals, hook and ladder trucks, etc., with the result that the city's annual fire loss has been reduced to a minimum and compares favorably with that of any city in the province. Education facilities of the city are also of the very best, the expenditure in this connection last year being \$50,000, which provided for the maintenance of six schools, including a High School and Business College, with an enrollment of 1,200 scholars and a large staff of efficient teachers, while the city's financial institutions include the Canadian Bank of Commerce, Royal Bank, Bank of Montreal and Bank of Nova Scotia; the pioneer banking institution of the city being the Canadian Bank of Commerce, located in a substantial brick structure with well furnished and commodious offices.

In the brief space allotted Nanaimo in this publication full justice cannot be given to the many advantages possessed by the city and district and its possibilities regarding its fisheries, lumbering, farming, fruit-growing and poultry raising. Its fisheries and lumber wealth are second only in importance to its mining, and while the district has not the number of acres under cultivation that some sections of the Island can boast of, the fertility of its soil has produced some record crops, notably the 550-acre farm at Wakesiah Park, owned and operated by the Western Fuel Company, the exhibit

of which farm alone comprises a large section of the annual exhibition of the Nanaimo Agricultural Society. At a recent exhibition oats shown were part of a phenomenal crop, in which five acres yielded 142 and a half bushels to the acre, and 32 acres gave 102 bushels 10 pounds to the acre. The yield of barley was 55 pounds per measure bushel, peas 68½, oats, 48, and wheat 68. A dairy is also operated in connection with this farm, the prize cow being one that during twelve months gave 9,614 pounds, or nearly five tons of milk, which was 390 pounds of butter-fat, producing 331 pounds of butter. Other cows in the herd are also of a high standard, so that taking every phase of farming into consideration the showing of the Wake-siah Farm is an important factor in bringing to the attention of the outside world possibilities of the district as an agricultural centre.

Nanaimo has exceptional advantages to offer as a suitable site for the establishment of industries, notably those requiring water frontage. As a shipbuilding centre it is unexcelled, possessing as it does in the long open reaches of the harbor, together with those of Departure Bay, some seven miles of the finest inclosed water on the Coast, capable of carrying ships of the greatest draught and capacity. Nanaimo's export tonnage at the present time being the second largest in Canada, alone exceeded by that of Montreal.

Nechaco River, 180 miles long, consisting of the Upper and Lower Nechaco Rivers. The Upper Nechaco River rises in the Ootsa Lake District, and flows north 80 miles, skirting the east end of Fraser Lake. It then turns due eastwards and under the name of the Lower Nechaco flows 100 miles into the Fraser River at Fort George.

NECHAKO

a settlement 11 miles from Vanderhoof, on G. T. P. Ry., in Fort George Provincial Electoral District. Has Dominion Government Telegraph and public school. The country is dotted over with small lakes, and there is plenty of fish and duck. Timber is mostly poplar, some spruce and Jack pine. Climate is very good, abundant rainfall in summer, and about 18 inches of snow in winter. Vanderhoof is the post office and business centre. Local resources: Mixed farming, grain and vegetables; wild fruits grow in abundance.
 Thompson F dairy farming

Neechantz River, 9 miles long, runs into Owekano Lake.

Needham Mountain, on the south of Graham Island, Queen Charlottes.

NEEDLES

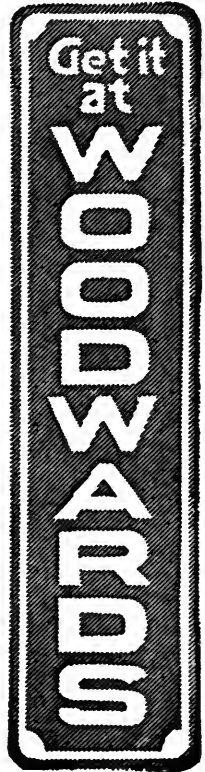

a post office on the west side of Lower Arrow Lake, 41 miles south of Nakusp, in Slokan Provincial Electoral District, served by C. P. R. Arrow Lake steamers between Arrowhead and West Robson. Has Dominion Government long distance telephone office and public school, public wharf, two stores, agricultural hall. Is the stepping off place for the Whatshan Valley Settlement, three miles west of Needles, and the famous Whatshan Lakes, which are noted for fishing, camping grounds, scenery and climate unexcelled, and also good shooting to be had. Conveyances and accommodation can be procured by applying to George Craft, postmaster.

Neel-kit-kwa River, 40 miles long, runs into Babine River, 10 miles north of Babine.

Nekalliston Creek, 19 miles long, runs from Lac Des Roches into the North Thompson River, 50 miles north of Kamloops.

Nekliptum Creek, 6 miles long, runs into the Fraser River, 8 miles south of Lytton.

Nelson

at the convergence of three lake systems, is the travel clearing house of the Crow's Nest Pass scenic route. The trans-provincial highway is located through the city. Eight rail and steamer routes give command of every section of the Kootenay, and with fishing, hunting, golfing, boating, motoring and excellent hotel accommodations make the city the interior tourist capital of British Columbia. Travellers to the Pacific Coast should not fail to utilize the Crow's Nest Pass route one way and see that their tickets provide for this.

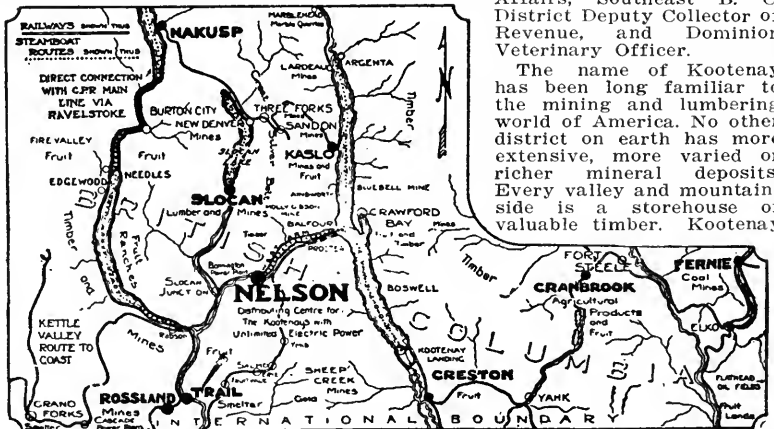

Nelson, as a residential city, challenges the world. A climate that is an elixir, lakes open the year round, all varieties of wild sport, all temperate fruits, electric cars, electric light, artificial gas, mountain water, sewerage, advanced schools, daily press, a progressive population make of Nelson an Arcadia. Nelson is the premier city of a sisterhood of progressive towns. It has a population of nearly 8,000.

The wholesale trade of the East and West Kootenay and adjacent territory is done from Nelson and forms, perhaps, the most important item of its steadily increasing business, covering, as it does, a very large district, the importance of which is second to none in the Province. There are many excellent retail stores, several of which would do credit to a large city. Many industries are represented in Nelson, among them a jam factory, iron works, motorboat factories, sash and door factory, brewery, sawmills and

lumber yards, engineering works, shingle mills, planing mills, marble works, granite quarries, complex ore reduction plant, municipal water-works, a mattress and upholstering factory, a C. P. R. shipyard, etc. In the district contiguous to Nelson are approximately 100 sawmills.

Nelson is situated in the centre of the Kootenay and Boundary country. Within easy distance of it are the Slocan and Boundary lode mining, and the very extensive lumbering interests. It is the banking, judicial, wholesale and manufacturing centre and is situated in the heart of the fruit region. It offers unlimited hydro-electric power development, it is the third city in population in British Columbia, and must always remain the business capital of this rich and fast settling territory. Nelson has all the attractions of a modern up-to-date city. It has a municipal-owned electric street car system, gas works and electric light and power plant. It has hospitals, public buildings and educational institutions, and is one of the most prosperous communities in British Columbia. The offices of the Provincial Government Agent, Assessor and Collector, Assistant Horticulturist, Provincial Agricultural Agent, District Forester, Land Commissioner Nelson Land Recording District, Land Registrar, District Engineer Public Works Department, Acting Chief Constable Provincial Police, Gold Commissioner Nelson Mining Division, District Registrar of the Supreme and County Courts, Inspector Dominion Department of Indian Affairs, Southeast B. C. District Deputy Collector of Revenue, and Dominion Veterinary Officer.

The name of Kootenay has been long familiar to the mining and lumbering world of America. No other district on earth has more extensive, more varied or richer mineral deposits. Every valley and mountain side is a storehouse of valuable timber. Kootenay

now appeals to the world with another title. Fortunes are still to be made by extracting precious metals from the earth and hewing the trees from her hillsides. It has another treasure to offer. In the fertile valleys that girdle every lake and border every stream is the richest fruit land of the continent. Kootenay apples, pears, cherries and strawberries are the marvel of the London and other markets to which all countries have long been sending their best.

The shores of Kootenay lakes and rivers are now lined with smiling orchards. Bee keeping is also attracting much attention and those engaged in it report most gratifying results. There is a great future here for that industry.

The district abounds in facilities for all kinds of sport. Fishing—the whole lake district, mountain streams and smaller lakes abound in fish (rainbow trout, brook trout). The salmon in Kootenay Lake can give fishermen the best day's sport obtained anywhere.

Small game is plentiful in the immediate vicinity. Deer, goat, black and brown bear, grouse and wild duck can be had within easy distance from the city. In more extended trips grizzly bear, cougar, caribou and mountain sheep.

Has C. P. and Western Union telegraph, and B. C. telephone. Nelson has an up-to-date Board of Trade, which is fully alive to its opportunities. Inquiries addressed to its secretary regarding the city or district are invited and will have prompt attention.

Among new industries is a match block factory and a clothespin factory, each employing about 25 hands. A match factory company is now in course of incorporation. All the necessary machinery for it has been built here and is ready for operating.

Nelson City Officers

Mayor—C. F. McHardy.
 City Clerk—W. E. Wasson.
